HISTORICAL RECORD OF THE IMPERIAL VISIT TO INDIA, 1911.

This book, which has been compiled by the Government of India from the official records, contains a complete and authoritative account of the proceedings connected with the visit of Their Imperial Majesties to India and with the Coronation Durbar of December 1911, including lists of the persons taking part in all the various celebrations, and ceremonies at which Their Imperial Majesties were present, as well as a large number of illustrations, portraits of Ruling Princes and others, coloured Persian and Sanscrit texts, maps, plans, etc.

The book has been published by Mr. John Murray, Albemarle Street, London, W., and copies are now procurable from all the principal booksellers.

There are two editions—a popular one in a cloth binding, price Rs. 7-8-0, and a very limited edition *de luxe*, price Rs. 250, which has been subscribed for. As the popular edition is strictly limited and a considerable portion of it has been absorbed in requisitions already received and in the requirements of libraries, schools, etc., it will probably be exhausted very soon after publication. Those who have not yet ordered copies but require them are therefore advised to order at an early date. Application should be made to the Superintendent, Government Printing, India, Calcutta.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 4th February 1915, based on the Indian Daily Weather Reports of the period.

1. A disturbance from the west gave rain in Baluchistan on the 30th January. In its advance eastwards it was associated with low pressure conditions over the northwest of the Peninsula and Gujarat which contributed considerably to its importance and largely increased the area of rainfall. Weather was disturbed over northwest and Central India for the rest of the week and precipitation occurred in Baluchistan, Sind, the North-West Frontier Province, Kashmir, the Punjab, Rajputana, Gujarat, Central India, the United Provinces and the north of the Central Provinces.

2. *Burma*.—Rain fell only at Mergui and Rangoon.

Northeast India, including Orissa.—At the beginning of the week rain was reported from several stations in Bihar and Chota Nagpur, and from Dibrugarh and Berhampore.

The United Provinces, Central India and the Central Provinces.—Rain fell at every station in the United Provinces on the 3rd February. Local falls occurred during the week in Central India and the Central Provinces.

Northwest India.—There was nearly general rain in west Baluchistan and Rajputana on the 2nd and 3rd February, and in the east and north Punjab on the 3rd. Only local falls occurred in the rest of the division.

The Peninsula.—A few scattered falls of rain were reported, chiefly from the northwestern districts.

3. The chief amounts of rain were as follows :—

January 29th—Mergui 1·88".

„ 30th—Pasni 1·27".

„ 31st—Khandwa 0·63".

February 1st—Saugor 1·01" and Pasni 1·23".

„ 2nd—Jhansi 1·17", Neemuch 1·76", Pasni 0·85", Ajmer 0·93" and Kotah 2·00".

„ 3rd—Mussooree 1·41", Mukteswar 1·05", Agra 2·04", Bareilly 0·88", Delhi 3·77", and Lahore 0·71".

4. The week's rainfall was 20 per cent. or more in excess over a large part of northwest and Central India. No rain fell in Upper Burma, Berar, the Konkan, Hyderabad South, Mysore and the Madras Deccan, but the absence of rainfall is a normal feature of the weather in these areas at this time of year. Rainfall was normal in Chota Nagpur, Bihar, Sind and Malabar; and was 20 per cent. or more in defect in the Bay Islands, Assam, Bengal, Orissa, the Punjab Southwest, Kashmir, the North-West Frontier Province, Baluchistan, Madras Southeast and the Madras Coast North. It was 20 per cent. or more in excess in all the remaining divisions.

The rainfall from the 4th December to date is 20 per cent. or more in defect in Assam, Bihar and Orissa, the Punjab Southwest, the North-West Frontier Province, Baluchistan, Sind, Central India East and Mysore; and differs by less than 20 per cent. from the normal in the United Provinces East, the Punjab East and North, Kashmir and the Madras Southeast. It is 20 per cent. or more in excess over the rest of the country.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 30th January 1915.

Burma.—Mergui reports 1·77 inches of rain. Heavy rain fell in three districts of Lower Burma. Threshing and winnowing of winter rice are advancing and many districts of Upper Burma report its outturn to be below normal. Sowing and transplanting of spring rice and miscellaneous crops are proceeding satisfactorily. Harvesting of groundnut, sesamum and millet still continues. Standing crops are generally satisfactory except in the Upper Chindwin district. The price of unhusked rice in Rangoon shows further rise and is now slightly above normal.

Assam.—The weather was seasonable. Harvesting of winter rice has been finished and that of mustard and pulses is in progress. Hoeing and pruning of tea, pressing of sugarcane and ploughing of lands for rice and jute are in progress. The price of common rice has risen slightly. Cattle disease is reported from one district.

Bengal.—Light rain fell in parts of the Rajshahi division. Threshing of winter rice is approaching completion and harvesting of the early spring crops has commenced in some districts. Preparation of lands for the autumn crops and pressing of sugarcane continue. Prospects of the standing spring crops have been greatly improved by the rainfall of the past week. Cattle disease is reported from seven districts. The average price of common rice has risen by about 1 per cent as compared with that of the previous week.

Bihar and Orissa.—Light rain was fairly general in Bihar and Chota Nagpur. There was no rain in Orissa. Threshing of winter rice is approaching completion. Pressing of sugarcane and harvesting of the early spring crops continue. The recent rainfall has been beneficial to the spring crops which are still suffering in some districts of Bihar from want of rain. The average price of common rice has remained almost stationary as compared with that of the previous week. The supply of fodder and water is sufficient. Cattle disease is reported from fourteen districts. The condition of standing crops in the Feudatory States of Orissa is good.

United Provinces.—Rain has fallen practically throughout the Provinces but more rain is needed in a few districts. Slight damage to crops by hail is reported in one district, otherwise the standing crops have been much benefited by the rain and are generally doing well. Pressing of sugarcane, irrigation of spring crops and cultivation of lands for sugarcane and extra crops continue. Prospects are favourable. Agricultural stock is in good condition. Cattle disease is reported from fourteen districts. Fodder and water are generally sufficient. Prices are high in places but are on the whole practically stationary.

Punjab.—Slight rain fell in parts of a few southeastern, submontane and western districts. It was beneficial for standing crops but more is still wanted everywhere. Pressing of sugarcane is in progress and its yield is average to good. The condition and expected yield of standing irrigated crops are generally good and of unirrigated crops fair. *Toria* is being harvested with yield average to good. Ploughing for and sowing of the extra spring crops continue. Cattle are generally healthy and fodder and water are sufficient. Prices of food grains range between warning and scarcity rates.

North-West Frontier Province.—Slight rain fell at certain places. More rain is urgently wanted. The weather is cold. Standing crops both on irrigated and unirrigated areas are fair. Harvesting of sugarcane continues in Bannu. The condition of cattle is generally good. Fodder and water are procurable. Prices are high but stationary.

Jammu.—Slight rain fell during the week. Prices are fluctuating. Wheat sells from 8½ to 12 and maize from 11 to 24 seers per rupee. The condition of standing crops is good. Cattle disease prevails in the Jammu tahsil. Fodder is sufficient.

Kashmir.—Slight snow fell during the week. Cattle disease is reported in Sripatabsinghpura. Prices are normal. Water and fodder are sufficient.

Rajputana.—The weather is cloudy and cold. Nearly general rain fell during the week. The maximum fall was 1.49 cents in Udaipur. Irrigation of spring crops and pressing of sugarcane continue. Prospects are generally good. Fodder and water are sufficient. Cattle are healthy. Prices are generally stationary but are rising in Bikaner, Karauli, Alwar, Dungarpur and Merwara.

Central India.—General rain fell in Gwalior, Bhopal and Baghelkhand. The weather is cloudy. Picking of cotton and harvesting of autumn crops continue. Spring crops are being irrigated. Standing crops are in good condition but are suffering for want of rain in Gwalior, Bhopal and Garrauli. Agricultural stock is in good condition but cattle disease is still prevailing in the Alirajpur State of Bundelkhand. Fodder is sufficient. Prices are high and are rising throughout. Poppy is being irrigated in Gwalior, Indore and Bhopal.

Central Provinces.—The weather was cloudy and cold. All districts of the Jubulpore and Hoshangabad divisions received rain accompanied in places by hail, varying from 4.4 cents in Mandla to 1½ inches in Saugor. Damage by hail has not yet been ascertained but the rain will be most beneficial especially to the late sown spring crops. Threshing of *juar* and picking of cotton continue in places. Fodder and water are sufficient and cattle are in good condition. Wheat still continues to be very dear generally and now varies from 7 to 4½ seers per rupee. Fluctuations in other food grains are unimportant.

Feudatory States.—Eight States received light showers of rain not exceeding 67 cents. The condition of spring crops is generally good but more rain is required in Jashpur. Rice rose by 2 seers per rupee in Sarangarh.

Bombay.—Rain fell during the week in Ahmedabad, the Panch Mahals, Khandesh, Nasik, Palanpur, Cutch and Rewa Kantha, damaging the standing crops in Ahmedabad and Nasik. Elsewhere the crops are generally good except for slight damage by locusts in one taluka and by insects in two talukas of Nawabshah, by frost in two talukas of the Upper Sind Frontier, by rats in parts of East Khandesh and in two States of Rewa Kantha and are withering in one taluka of Poona. Cotton picking is progressing in Hyderabad, Thar and Parkar, Nawabshah, Ahmedabad, Broach, West Khandesh, Nasik, Belgaum, Kathiawar, Baroda, Cutch and Rewa Kantha. Harvesting of spring crops has commenced in the Deccan and Bijapur. The fodder supply is sufficient except in the area affected by floods and in the hilly tracts of Karachi, and two talukas of Thar and Parkar. Cattle are in good condition. Agricultural stock is sufficient except in Ahmednagar and Poona. Drinking water is adequate. Water for irrigation is generally sufficient. Prices have slightly risen in the Konkan and the Deccan, have fallen in Gujarat and the Karnatak and are steady elsewhere.

Hyderabad.—The rainfall during the week was 1 cent in the Aurangabad district. Spring crops are being harvested and are fair to good but they have been damaged by rain and insects in parts of the Medak district and by rats in parts of the Aurangabad, Usmanabad and Bidar districts. Sowing of late rice continues and the crop which is being weeded in parts shows good growth. Cattle disease prevails in ten talukas. Prices:—Wheat 5, coarse rice 7½ and *juar* 14½ seers per rupee. The highest price in districts is *juar* 11 seers in Parbhani and Warangal and the lowest 24 seers in Adilabad.

Mysore.—No rain fell during the week. The price of *ragi* has risen in Shimoga. Markets are well supplied. The outturn of the harvested *ragi*, paddy, sugarcane, coffee and cotton is fair. Standing crops are in good condition. Prospects of the season are generally good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Threshing of rice and picking of coffee continue. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was light in the Vizagapatam Agency, Nellore, Tinnevely, Malabar and Cochin and nil elsewhere. Standing crops are fair to good but are withering or require rain in parts of three districts. Harvesting of paddy, sugarcane and dry crops is proceeding generally with outturn fair to normal. Sowings of paddy and dry crops are proceeding normally. The condition of cattle is generally good. The water supply is generally sufficient except in parts of Ganjam, Godavari, the Deccan, Nellore, central parts, Madura and Tinnevely. Pasture is sufficient except in Kurnool and in parts of six other districts. Fodder is generally sufficient. Prices are stationary.

(b) So much of the 6th section of the said Act as requires the expiration of fifteen days before issue of warrant shall be excepted.

(c) The Political Resident shall not be bound to return a fugitive offender to a British possession unless satisfied that the proceedings to obtain his return are taken with the consent of the Governor of that possession.

Where under any such Imperial Act, Law, or Order, any publication is required to be made, as respects any judicial proceeding in any "Gazette" or otherwise, such publication shall be made by such mode as the Court shall think fit to direct.

PART III. — *Criminal.*

14. (1) Subject to the other provisions of this Order, the Code of Criminal Procedure and the other enactments relating to the administration of criminal justice in British India for the time being shall be applicable to Bahrain. The Political Resident in the Persian Gulf shall hold and form a Court, to be called the Chief Court, which shall have all the powers of a High Court of Judicature: the Political Agent at Bahrain shall be deemed to be the District Magistrate and Sessions Judge; the Judicial Assistant to the Political Resident shall be deemed to be the Additional District Magistrate and Additional Sessions Judge; and the powers of the Governor-General in Council and of the Local Government under those enactments shall be exercisable by the Secretary of State, or, with his previous or subsequent assent, by the Governor-General of India in Council.

Notwithstanding, in any case triable by a Subordinate Magistrate under Chapters XVI to XXIII inclusive of the Indian Penal Code, if both the complainant and defendant are Mahomedans and are acquiescent in such procedure, the Political Agent may order the case to be tried by a Kazi, a representative from the Agency attending to record briefly the proceedings. In such suits the judgment passed by the Kazi cannot be carried into effect until it is ratified by the Political Agent, and the Political Agent is empowered to revise the finding and sentence as if the Kazi were a Subordinate Magistrate, or to return the case for re-trial to the same or another Kazi. The sentence of the Kazi, when ratified by the Political Agent, shall for all purposes be regarded as if it were the decision of the Political Agent in the District Court.

(2) Any jurisdiction exercisable by the Chief Court in criminal matters under this Order may be exercised by the Judge of that Court either within the limits of this Order or elsewhere.

15. In cases in which the Code of Criminal Procedure requires the sentence of a Court of Session to be confirmed by the High Court, the sentence shall be referred for confirmation to the Governor-General of India in Council instead of to the Chief Court.

16. Where a person subject to this Order is accused of the commission of an offence the cognizance whereof appertains to the Court, and it is expedient that the offence be inquired of, tried, determined, and punished in a British possession, the accused may (under the Foreign Jurisdiction Act, 1890, section 6), be sent for trial to Bombay.

The Chief Court may, where it appears so expedient, by warrant under the hand and seal of the Political Resident, cause the accused to be sent for trial to Bombay accordingly.

The warrant shall be sufficient authority to any person to whom it is directed to receive and detain the person therein named, and to carry him to and deliver him up at Bombay according to the warrant.

Where any person is to be so sent to Bombay, the Court before which he is charged shall take the preliminary examination, and shall bind over such of the proper witnesses as are British subjects in their own recognizances to appear and give evidence on the trial.

17. (1) The Political Resident may by General Order prescribe the manner in which, and the places at which, sentences of imprisonment are to be carried into execution within the limits of the Order.

(2) The Court may, in any case by warrant sealed with its seal, cause an offender convicted and sentenced to imprisonment before the Court to be removed to, and imprisoned in, any place that shall be prescribed by the Political Resident under the authority provided for in sub-section (1) of this Article.

18. Where an offender convicted before any Court under this Order is sentenced to imprisonment, and the Political Resident proceeding under section 7 of the Foreign Jurisdiction Act, 1890, authority in that behalf being hereby given to him, considers it expedient that the sentence should be carried into effect elsewhere than within the limits of this Order, and the offender is accordingly sent for imprisonment to a place outside the limits of this Order, the place shall be either a place in the Presidency of Bombay, or a place in some other part of His Majesty's dominions, the Government whereof consents that offenders may be sent thither under this Article, or a place in which by Treaty, grant, usage, sufferance or other lawful means His Majesty has jurisdiction, provided that if a person is not a British subject he shall only be sent under this Article to a place in His Majesty's dominions.

19. (1) In cases of murder or culpable homicide, if either the death or the criminal act which wholly or partly caused the death happened in Bahrain, a Court acting under this Order shall have the like jurisdiction over any person to whom this Order applies who

is charged either as a principal offender or as an abettor as if both such criminal act and the death had happened in Bahrein.

(2) In the case of any offence committed on the high seas or within the Admiralty jurisdiction by any person who at the time of committing such offence was on board a British ship, or by any British subject on board a foreign ship to which he did not belong, the Court shall, subject to the provisions of this Order, have jurisdiction over such person as if the offence had been committed within its jurisdiction.

(3) In cases tried under this Article no different sentence can be passed from the sentence which could be passed in England if the crime were tried there.

(4) The foregoing provisions of this Article shall be deemed to be adaptations, for the purposes of this Order and of the Foreign Jurisdiction Act, 1890, of the following enactments, namely :—

The Admiralty Offences (Colonial) Act, 1849 ;

The Admiralty Offences (Colonial) Act, 1860 ;

The Merchant Shipping Act, 1894, Part XIII ;

and those enactments shall apply accordingly, and be administered in Bahrein.

20. Where a person is convicted of an offence, the Court before which he is convicted may, if it thinks fit at any time before he is discharged, require him to give security to the satisfaction of the Court for his future good behaviour, and for that purpose may, if it thinks fit, cause him to come or be brought before the Court.

21. (1) Where it is shown by evidence on oath, to the satisfaction of the District Court, that any British subject has committed, or is about to commit, an offence against this Order, or is otherwise conducting himself so as to be dangerous to peace and good order, or is endeavouring to excite enmity between the people of Bahrein and His Majesty, or is intriguing within the limits of this Order against His Majesty's power and authority, the Court may, if it thinks fit, by order under its seal, prohibit that person from being within the limits of this Order, during any time therein specified, not exceeding two years.

(2) The Court, by order in writing under its seal, may vary any order of prohibition (not extending the duration thereof), and may revoke any order of prohibition or removal.

(3) The Court shall forthwith report the order and the grounds thereof to the Chief Court, which shall forthwith report to the Governor-General of India in Council every order made under this Article, and the grounds thereof, and the proceedings thereunder.

22. (1) If any British subject fails to give security for good behaviour or for keeping the peace when lawfully required to do so, or fails to comply with an order of prohibition made under this Order, the Chief Court or the District Court may, if it thinks fit, order that he be deported from any place within its jurisdiction as prescribed by this Order.

(2) If the order of deportation is made by the District Court, it shall forthwith report to the Chief Court the order and the grounds thereof.

(3) Thereupon the person ordered to be deported shall, unless the Chief Court thinks fit otherwise to direct, be as soon as practicable, and in the case of a person convicted either after execution of the sentence or while it is in course of execution, removed in custody under warrant to the place named in the warrant.

(4) The place shall be a place in that part of His Majesty's dominions, or in the British Protectorate, to which the person belongs, or the Government of which consents to the reception of persons deported under this Order.

(5) The Court, on making an order of deportation, may, if it thinks fit, order the person to be deported to pay all or any part of the expenses of his deportation, to be fixed by the Court in the order. Subject thereto, the expenses of deportation shall be defrayed as the Secretary of State, with the concurrence of the Treasury, or with the previous or subsequent assent of the Secretary of State, the Governor-General of India in Council, directs.

(6) The Chief Court shall forthwith report to the Governor-General of India in Council every order of deportation made under this Order, and the grounds thereof, and the proceedings thereunder.

(7) If a person deported under this Order returns to Bahrein without permission in writing of the Chief Court, or the Governor-General of India in Council, or the Secretary of State (which permission the Chief Court, or the Governor-General of India in Council, or the Secretary of State respectively may give), he shall be punished with imprisonment for a term which may extend to two months, or with a fine which may extend to 1,000 rupees, or with both.

(8) He shall also be liable to be forthwith again deported under the original or a new order, and a fresh warrant.

23. An appeal shall not lie against an order of prohibition, or removal or deportation made under this Order.

24. (1) Where under this Order a person is to be sent or removed or deported from any place within the jurisdiction of the Court as prescribed by this Order he shall, by warrant of the Court sealed with its seal, be detained, is necessary, in custody, or in prison, until a fit opportunity for his removal or deportation occurs, and then be put on board a vessel belonging to or in the service of, His Majesty, or if no such vessel is available, then on board some other British or other fit vessel.

(2) The warrant shall be sufficient authority to the person to whom it is directed or delivered for execution, and to the Commanding Officer or master of the vessel, to receive and detain the person therein named, in the manner therein prescribed, and to send or remove and carry him to the place therein named, according to the warrant.

(3) In case of sending or removal for any purpose other than deportation, the warrant shall be issued in duplicate, and the person executing it shall, as soon as practicable after his arrival at the place therein named, deliver, according to the warrant, with one of the duplicates of the warrant, to a constable, or proper officer of police, or keeper of a prison, or other proper authority or person there, the person named in the warrant, to be produced on the order of the proper Court or authority there, or to be otherwise dealt with according to law.

A Minute shall be made and kept of every such case of punishment, recording the facts of the offence and the extent of the punishment.

Provided that, if the Court thinks fit, instead of proceeding under the preceding provisions, it may direct or cause the offender to be tried in a separate criminal prosecution or proceeding, in which the offender shall be liable to any punishment to which he would be liable if the offence were committed in relation to the Court of a Sessions Judge in India.

Nothing herein shall interfere with the power of the Court to remove or exclude persons who interrupt or obstruct the proceedings of the Court.

26. If any person to whom this Order applies smuggles or imports into or exports from Bahrein any goods whereon any duty is charged or payable to the Sheikh of Bahrein, with intent to evade payment of the duty, he shall be punished with imprisonment for a term which may extend to two months, or with fine which may extend to 1,000 rupees, or a sum equal to treble the value of the goods (whichever shall be the greater), or with both imprisonment and fine.

(2) The Political Agent shall take such precautionary measures as seem to him proper and expedient for the prevention of such offences.

CIRCULAR No. 3-C.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

(FORESTS.)

Delhi, the 3rd February 1915.

The following regulations for the selection and training of probationers for the Indian Forest Service are published :—

INDIAN FOREST SERVICE.

REGULATIONS AS TO THE APPOINTMENT OF PROBATIONERS, 1915.

1. *Appointments.*—The Secretary of State for India in Council will, in the summer of 1915, make a number of appointments of Probationers for the Indian Forest Service.

In making these appointments, he will act with the advice of a Selection Committee.

2. *Applications for Appointment.*—Applications for appointment must be made on a printed form to be obtained from the Secretary, Revenue Department, India Office, Whitehall, London, S. W., and to be returned to him not later than **Thursday the 1st July 1915.** Candidates must be prepared, if called upon, to attend at the India Office, at their own expense, for a personal interview with the Selection Committee within three weeks from that date.

3. *Age limit.*—Candidates must be not less than 19 but under 22 years of age on the 1st January 1915.

4. *Nationality, etc.*—Every candidate must be a natural-born subject of His Majesty. He must be prepared to give an undertaking, if selected, that he will not marry before he reaches India. If he does so, he will forfeit his appointment. He must be of good physique, and must produce evidence of character to satisfy the Secretary of State for India in Council that he is suited for the Indian Forest Service.

5. *Qualifications.*—Candidates must have obtained a degree *with Honours* in some branch of Natural Science* in a University of England, Wales, or Ireland, or have passed the Final Bachelor of Science Examination in Pure Science in one of the Universities of Scotland.† A degree in Applied Science will not be considered as fulfilling these conditions. Candidates will be required to produce evidence that they have a fair knowledge of either German or French.

Note.—Applications for appointment will be accepted from candidates who on the 1st July 1915 have already sat at an examination for a degree as mentioned above, but have not learned the result of the examination.

6. Should there be more candidates considered to be qualified in every respect than vacancies to be filled, the Secretary of State reserves the right to require them to pass a competitive examination conducted by the Civil Service Commissioners, on the results of which their final selection would depend. Particulars of this examination, which would be held in August, will be found in Appendix I.

7. *Medical Examination.*—Selected candidates will be required to undergo a strict examination by a Medical Board at the India Office, at which particular stress will be laid on good vision and hearing, and to satisfy the Secretary of State for India that they are physically fit for service in the Indian Forest Department (*see Appendix VI*).

Candidates who do not satisfy the Secretary of State for India that they are physically fit for appointment to the Indian Forest Service will not be admitted to the competitive examination mentioned in Regulation 6.

8. *Period of Probation.*—Before appointment to the Indian Forest Department, a probationer will be required :—

- (a) to have obtained, either before selection as probationer, or within the period of two years' probation, the degree or diploma in Forestry at one of the

‡ Oxford, Cambridge, or Edinburgh.

Universities named in the margin ;‡

* A Moderatorship in Natural Science or in Experimental Science at the University of Dublin will be considered as fulfilling these conditions.

† Graduates in Forestry at the University of Edinburgh are regarded as satisfying the requirements of this paragraph if they pass the Final Examination of that University in some one branch of Natural Science embraced in the degree in Pure Science.

- (ii) to have undergone a special course of instruction in Forestry, under the direction and supervision of the Director of Indian Forest Studies appointed by the Secretary of State for India in Council, in such British and Continental localities as may be selected for the purpose;
- (iii) to have passed an examination in certain special subjects, namely, Systematic Botany of Indian trees, Indian Geology, Forest Law, Indian Working Plans and, if required, an Indian vernacular language;
- (iv) to have undergone a final competitive examination in Forestry (*see* Appendix II.);
- (v) to have satisfied the Secretary of State, in such manner as may be determined, of his ability to ride.

The period of probation will in ordinary cases be two years. The Director of Indian Forest Studies will instruct probationers in each case as to the order and manner in which they should fulfil these various requirements.

9. *Charges*.—The probationers will be required to defray all expenses of lodging, board, tuition, and excursions, while at the University, and on practical instruction in Great Britain and on the Continent, with the exception of fees payable to local forest officers in Great Britain and on the Continent.

10. *Allowances*.—The Secretary of State for India in Council will make payments to each probationer at the rate of 120*l.* annually, not exceeding a total of 240*l.* (besides the fees to local officers mentioned above). These payments will ordinarily be made on the following dates in each year :—

	£
On the 1st December	80
On the 1st March	80
On the 1st June	60

The cases of probationers whose probation does not extend over the full two years will be specially considered.

The grant of the allowances is subject to the following conditions :—

- (a) that the progress of the probationer in his studies is satisfactory;
- (b) that the probationer gives security to refund the payments in respect of this advance, as well as such payments, not exceeding 60*l.* in all, as may have been incurred by the Secretary of State on the probationer's behalf in respect of fees to local forest officers, in the event of his failing to qualify for an appointment in the Indian Forest Service, or not signing the articles of agreement as specified in paragraph 13, or failing to join the Indian Forest Service at the end of the period of probation.

11. *Conduct*.—Every probationer will be required to conduct himself during the period of probation in a manner satisfactory to the Secretary of State, and to give evidence of satisfactory progress in his studies in such a manner as may be required, failing which, or in the event of serious misconduct, he will be liable to have his name removed from the list of Probationers.

12. *Appointment and Seniority*.—Probationers who comply with the requirements of Regulation 8 within the sanctioned period of time, and also satisfy such other tests as may be prescribed, will be appointed Assistant Conservators in the Indian Forest Department, provided they are of sound constitution and free from physical defects which would render them unsuitable for employment in the Indian Forest Service. Their position in the provincial Forest Lists will be determined by the Secretary of State for India in Council on the report of the Director of Indian Forest Studies; but in making selections for the post of Conservator, officers joining the service in the same year are reckoned as equal in seniority unless the Secretary of State for India in Council shall for special reasons have directed otherwise in any particular case or cases.

Probationers will be allowed at the end of the period of probation to state their preference in respect to the Provinces to which they desire to be allotted; but the distribution will be made to the several Provinces according to the needs of the public service, at the discretion of the Secretary of State for India in Council. Officers are, however, at all times liable to be transferred from one Province to another at the pleasure of the Government of India.

13. *Articles of Agreement*.—A probationer is required, on qualifying for appointment as Assistant Conservator, to sign articles of agreement setting forth the terms and conditions of his appointment; he must embark for India when required to do so by the Secretary of State, and must engage his own passage. Failure to embark at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

14. *Passage Allowance*.—An allowance on account of passage to India will be paid to each probationer on appointment to the Indian Forest Service, to the amount of 37*l.* 10*s.* for passage to Calcutta, Madras, or Bombay, and 43*l.* for passage to Rangoon.

Note.—The above is the normal rate of passage allowance. In consequence of the surtax of 10 per cent. at present charged by shipping companies in respect of passages to India the above rates of passage allowance have been raised to 41*l.* 5*s.* and 45*l.* 5*s.* respectively. Should this surtax be removed, these rates will be reduced to those given in paragraph 14.

15. *Salary* —An Assistant Conservator of Forests will draw pay at the rate of Rs. 380 a month (equivalent to 804*l.* a year, when the rupee is at 1*s.* 4*d.*) from the date of his reporting his arrival in India.

16. *Promotion, Leave, Pension, and Provident Fund.*—Promotion, leave, and pension will be governed by the Regulations laid down by the Government of India, and applicable to Forest officers, such regulations being subject to any modifications or alterations which may be made in them from time to time by the Government of India, and their interpretation in case of any doubt arising being left to that Government. A copy of the existing regulations can be seen on application at the India Office.

Certain information regarding appointments in the upper controlling staff of the Indian Forest Service, the pay of which has been recently improved, will be found in Appendix III.; a summary of information regarding leave is contained in Appendix IV.; and regarding Pensions and the Provident Fund in Appendix V.

With a view to the allocation of the annual Currie Scholarship for Indian Forest Students (value about 35%), and to facilitate the allotment of probationers to the several provinces in accordance with paragraph 12 of the Regulations as to appointments in the Indian Forest Service, probationers who have completed their prescribed course of training will be required to undergo a competitive final examination in Forestry.

2. A list of the probationers in order of merit will be prepared by adding together (a) the marks obtained at the final examination, and (b) the marks obtained during the course of practical training in forestry under the control of the Director of Indian Forest Studies. The maximum of marks obtainable under (a) will be the same as under (b).

APPENDIX IV.

[NOTE.—Appendices IV and V are intended merely to show the principal leave and pension rules in the Civil Service Regulations at present applicable to officers appointed to the Indian Forest Service by the Secretary of State from the United Kingdom, without going into minute details, and do not profess to deal with every case that may arise. The rules are subject to alteration, and any disputed question must be decided with reference to the authorised text of the Civil Service Regulations for the time being.]

LEAVE.

Long Leave.

1. Furlough and special leave with allowances (*see* paragraph 5) are admissible to an aggregate maximum amount of six years during an officer's service. The amount of furlough "earned" is one-fourth of an officer's active service, and the amount "due" is that amount less any enjoyed.

2. Furlough without medical certificate can, if due, be generally taken after eight years' active service, and again after intervals of not less than three years' continuous service. It is limited to two years at a time.

3. Furlough on medical certificate may be granted (a) to an officer who has rendered three years' continuous service, for not more than two years, but capable of extension up to three years; and (b) to an officer who has not rendered three years' continuous service, up to one year in any case, and up to such longer period, if any (but not exceeding two years in all), as the officer may have furlough "due" to him.

4. The allowances admissible during furlough are :—

- (1) During the first two years of furlough without medical certificate and during so much of furlough with medical certificate as may be "due"—half average salary, subject to certain maximum and minimum limits.
- (2) After the expiration of the period for which the foregoing allowances are admissible—one quarter of average salary, subject to certain maximum and minimum limits.

5. Special leave may be granted at any time for not more than six months, with intervals of six years' service; allowances, calculated as during furlough, are given during the first six months only, whether taken in one or more instalments.

* The officer holding this appointment draws in addition to the pay of his grade a minimum local allowance of Rs. 200 a month.

† These appointments are allotted to the various provinces as follows :—Burma, 66; Madras, 32; Bombay, 28; Central Provinces, 24; United Provinces, 29; Punjab, 12; Bengal, 12; Assam, 13; and Bihar and Orissa, 6; and 4 Imperial Instructors at Dehra Dun.

‡ Until he has passed the prescribed Departmental examinations, an Assistant Conservator is liable to stoppage of increments of pay. On passing the examinations he will resume drawing pay under the time scale at the rate to which his length of service entitles him.

§ These draw a local allowance of Rs. 150 a month in addition to their grade pay, with the exception of the President, Forest Research Institute and College, in whose case the allowance is at the rate of Rs. 200 a month. Of these 10 appointments, the four posts of Imperial Instructors have been sanctioned for five years from 1912, for the present.

NOTE.—Under the improved scale of salary shown above, no Exchange Compensation Allowance is granted.

Short Leave.

6. Privilege leave is a holiday which may be granted to the extent of one-eleventh part of the time that an officer has been on duty without interruption; and it may be accumulated up to three months, earned by 33 months' duty. During privilege leave, the officer retains a lien on his appointment, and receives the salary which he would have received if on duty. An interval of not less than six months must elapse between two periods of absence on privilege leave.

Privilege leave may be prefixed to furlough, special leave or extraordinary leave without allowances. The whole period of leave thus taken in combination is known as combined leave. Combined leave may not be granted for a period of less duration than six months, nor, except on medical certificate, may it be extended beyond two years.

7. Subsidiary leave in India for a minimum of 10 days, usually with half average salary, is granted to an officer proceeding on or returning from leave out of India, or on retirement, to enable him to reach the port of embarkation or to rejoin his appointment. It is admissible only at the end and not at the beginning of combined leave.

8. Short leave is also granted to enable officers to appear at examinations, etc.

9. Extraordinary leave without allowances may be granted in case of necessity, and, except in certain specified cases, only when no other kind of leave is by rule admissible. It may be granted in continuation of other leave.

General Rules.

10. Leave of absence can never be claimed as of right, and is given or refused at the discretion of Government.

11. When leave allowances other than privilege leave pay are paid at the Home Treasury, or in a Colony where the standard of currency is gold, rupees are converted into sterling at the rate of exchange fixed for the time being for the adjustment of financial transactions between the Imperial and Indian Treasuries, unless any other rate has been exceptionally authorised. But for the present the rate of conversion is subject to a minimum of 1s. 6d. to the rupee. Privilege leave pay when issued from the Home Treasury (this is only admissible when privilege leave is combined with other leave) is converted at 1s. 4d. to the rupee.

APPENDIX V.

(See Note under Appendix IV.)

PENSIONS AND PROVIDENT FUND.

1. An officer of the Indian Forest Service is eligible for a pension on voluntary retirement after completing 20 years' qualifying service or attaining the age of 55 years. If at an earlier date he is compelled to retire from the service through ill-health, not occasioned by irregular or intemperate habits, he becomes eligible for an invalid pension or a gratuity according to the length of his service.

The amount of pension or gratuity is regulated as follows:—

After a service of less than 10 years, an invalid gratuity not exceeding one month's emoluments for each completed year of service.

After a service of not less than 10 years an invalid pension not exceeding the following amounts:—

Years of Completed Service.	Maximum Limit of Pension.
10	Rs. 1,000 a year.
11	1,400 "
12	1,800 "
13	2,200 "
14	2,600 "
15	
16	
17	3,000
18	
19	

After a service of not less than 20 years, a retiring pension not exceeding the following amounts:—

Years of Completed Service.	Scale of Pension. Sixtieths of Average Emoluments.	Maximum Limit of Pension.*
20 to 24	30	Rs. 4,000 a year.
25 and above		" 5,000

Officers who have shown special energy and efficiency during an effective service of three years as Inspector-General of Forests or Conservator may, at the discretion of the Government of India, be allowed an additional pension of Rs. 1,000 a year subject to the condition that the officer must not retire voluntarily before the completion of a total qualifying service of 28 years.

Subject to certain prescribed conditions, rupee pensions are now issued to pensioners residing in countries where the Indian rupee is not legal tender at the rate of exchange of 1s. 8d. the rupee.

2. A General Provident Fund has also been established on the following basis :—

- (a) The contribution is compulsory up to $6\frac{1}{2}$ per cent. on salaries, with voluntary contributions of not more than a further $6\frac{1}{2}$ per cent. Subscriptions on leave of any kind are optional.
- (b) Compound interest on such payments is annually credited by Government to each officer subscribing, the rate being at present 4 per cent. per annum.
- (c) The sum which thus accumulates to the credit of an officer is his absolute property, subject to the rules of the Fund, and is handed over to him, unconditionally, on quitting the service; or, in the event of his death before retirement, to his legal representatives or such other person or persons as under and subject to the rules of the Fund for the time being in force, may be entitled thereto.
- (d) Other forms of life insurance will, however, if they fulfil certain conditions, be accepted in lieu of the contributions in (a).

APPENDIX VI.

GENERAL PHYSICAL REQUIREMENTS.

[Note.—These Regulations are published for the convenience of candidates and in order to enable them to ascertain the probability of their coming up to the required physical standard. But it must be clearly understood that the Secretary of State reserves to himself an absolute discretion to reject as unfit any candidate whom he may consider, after hearing the opinion of his medical advisers, to be physically disqualified for the public service; and that his discretion is in no respect limited by these Regulations.

1. A candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with efficient performance of duty.

2. In the examination of candidates the Medical Board will apply the following table of correlation of age, height, and chest girth :—

Age.	Height with out Shoes.	Chest.	
		Girth when expanded.	Range of Expansion.
	Inches.	Inches.	Inches.
19 to 20	62½ and under 65 . . .	35	2
	65 „ 68 . . .	35	2
	68 „ 70 . . .	35½	2
	70 „ 72 . . .	36	2
	72 and upwards . . .	36½	2½
21 and upwards	62½ and under 65 . . .	35	2
	65 „ 68 . . .	35½	2
	68 „ 70 . . .	36	2
	70 „ 72 . . .	36½	2½
	72 and upwards . . .	37	2½

3. *Measurement of Height.*—The candidate will be placed against the standard with his feet together, and the weight thrown on the heels, and not on the toes or outside of the feet. He will stand erect without rigidity, and with the heels, calves, buttocks, and shoulders touching the standard; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be noted in parts of an inch to eighths. No fixed limit of height is imposed.

4. *Measurement of Chest.*—The candidate will be made to stand erect with his feet together, and to raise his hands above his head. The tape will be carefully adjusted round the chest the posterior upper edge touching the inferior angles of the shoulderblades, and

its anterior lower edge the upper part of the nipples. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards as to displace the tape. The candidate will then be directed to empty his chest of air as much as possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape is carefully gathered in during the process, and when the minimum measurement is reached it is recorded. The candidate will then be directed to inflate his chest to its utmost capacity. This maximum measurement will likewise be noted. The girth with the chest fully expanded and the range of expansion between the minimum and the maximum will then be recorded.

5. The hearing must be good.

6. The speech without impediment.

7. The teeth in good order, *i.e.*, decayed or broken teeth must be properly stopped or crowned, and deficient teeth replaced by artificial teeth where necessary for effective mastication.

8. The chest must be well formed, the lungs and heart sound.

9. Rupture, hydrocele, varicocele, varicose veins in a severe degree, or other condition likely to cause inefficiency will disqualify a candidate, unless such condition is cured by operation.

10. The limbs, feet, and toes must be well formed and developed, with free and perfect motion of all the joints.

11. A candidate must have no congenital malformation or defect likely to interfere with efficiency.

12. A candidate must not be the subject of chronic skin disease.

13. Evidence of previous acute or chronic disease pointing to an impaired constitution will disqualify.

14. Candidates may, if they wish it, undergo a preliminary examination as to their physical fitness by the Medical Board, which meets at the India Office every Tuesday, under the following conditions:—

(a) Applications must be addressed to the Under Secretary of State, India Office, Whitehall, London, accompanied by a fee of two guineas.

(b) Candidates must pay their travelling expenses.

(c) It must be understood that the opinion of the Medical Board, which will be communicated by the Board to the candidate at the end of the examination, is solely for the candidate's own information and is not an official finding. The Board, if they consider a candidate unfit, will exercise their discretion as to informing him of the particular grounds on which their opinion is based. No further information can in any case be given as to the Medical Board's opinion which will be confined solely to the physical fitness of the candidate; and any question as to the eligibility of the candidate, if found physically fit, to be admitted to the particular Indian service which he desires to enter, should be addressed in writing to the Under Secretary of State.

(d) Candidates considered to be unfit by the Medical Board at this preliminary examination are not bound to accept its opinion, but may, *at their own risk*, continue their studies, with the knowledge that they will have to submit themselves for a final medical examination by the Medical Board prior to their appointment.

(e) As the preliminary examination by the Medical Board is held solely for the candidate's information, a candidate who is informed after such an examination that he is physically fit will have on that account no claim to be accepted as physically fit when he presents himself for the final medical examination, upon which alone his acceptance or rejection will depend. Candidates may be considered fit for the service at the preliminary examination, but may be found at the final examination to be unfit, either on account of some physical defect which did not exist or passed undetected at the preliminary examination, or for other reasons.

REGULATIONS AS TO THE STANDARD OF VISION FOR THE INDIAN FOREST SERVICE.

1. If myopia in one or both eyes exists, a candidate may be passed, provided the ametropia does not exceed 2.5 D, and if with correcting glasses, not exceeding 2.5 D, the acuteness of vision in one eye equals $\frac{5}{6}$ and in the other $\frac{4}{5}$, there being normal range of accommodation with the glasses.

2. Myopic astigmatism does not disqualify a candidate for service, provided the lens or the combined spherical and cylindrical lenses required to correct the error of refraction do not exceed —2.5 D; the acuteness of vision in one eye, when corrected, being equal to $\frac{5}{6}$, and in the other eye $\frac{4}{5}$, together with normal range of accommodation with the correcting glasses, there being no evidence of progressive disease in the choroid or retina.

HISTORICAL RECORD OF THE IMPERIAL VISIT TO INDIA, 1911.

This book, which has been compiled by the Government of India from the official records, contains a complete and authoritative account of the proceedings connected with the visit of Their Imperial Majesties to India and with the Coronation Durbar of December 1911, including lists of the persons taking part in all the various celebrations and ceremonies at which Their Imperial Majesties were present, as well as a large number of illustrations, portraits of Ruling Princes and others, coloured Persian and Sanscrit texts, maps, plans, etc.

The book has been published by Mr. John Murray, Albemarle Street, London, W., and copies are now procurable from all the principal booksellers.

There are two editions—a popular one in a cloth binding, price Rs. 7-8-0, and a very limited edition *de luxe*, price Rs. 250, which has been subscribed for. As the popular edition is strictly limited, and a considerable portion of it has been absorbed in requisitions already received and in the requirements of libraries, schools, etc., it will probably be exhausted very soon after publication. Those who have not yet ordered copies but require them are therefore advised to order at an early date. Application should be made to the Superintendent, Government Printing, India, Calcutta.

NOTIFICATION.

Dated the 1st February 1915.

No. 1164-L. A.—The following agreement made under section 41 of the Land Acquisition Act, I of 1894, is published for general information.

J. H. KERR,

Secretary to the Government of Bengal.

Agreement executed by the Comilla Central Co-operative Bank, Limited, desiring to acquire land under section 41 of the Land Acquisition Act.

Agreement made this 19th day of December 1914 between the Comilla Central Co-operative Bank, Limited, a Co-operative Society incorporated under the Act (Act II of 1912) relating to Co-operative Societies and having its registered office at Kandirpar within the town and Municipality of Comilla, District Tippera (hereinafter called the Company), of the one part and the Secretary of State for India in Council (hereinafter called the Secretary of State) of the other part.

Whereas for the purpose of the construction of an office building and out-houses, etc., the company has applied to the Government of Bengal for the acquisition under the provisions of the Land Acquisition Act, 1894 of the piece or parcel of land containing 1 bigha 1 cottah and 2 chitaks or thereabout, situate in the village of Kandirpar within the town and Municipality of Comilla, District Tippera and more particularly described in the schedule and delineated in the plan* hereunto annexed.

And whereas the said Government of Bengal being satisfied by an enquiry held under section 40 of the said Act that the proposed acquisition is needed for the aforesaid purpose and that the said work is likely to prove useful to the public, has consented to acquire on behalf of the Company the said piece of land.

And whereas the said Government of Bengal has required the Company under the provisions of section 41 of the abovementioned Act to enter into the agreement with the Secretary of State hereinafter contained. Now this indenture witnesseth that it is hereby agreed and declared as follows:—

1. On demand the Company shall and will pay to the said Government of Bengal all and every compensation in respect of the land which will be acquired for the Company tendered, paid or awarded or to be tendered, paid or awarded by the Collector under the Land Acquisition Act 1894, or by the Court to which a reference under part III of the said Act may be made, or by the Court or Courts to which an appeal from the award of the said Court may be preferred and all costs, charges and expenses of the proceedings in the aforesaid Courts or otherwise incidental to the proposed acquisition or payable in respect thereof under the provisions of the said Act.

On demand made by the said Collector the obligations of the company, under the last preceding clause not being thereby limited, the company shall and will deposit with the said Collector such sum or sums of money as in his discretion the said Collector may in anticipation estimate to be necessary for the purposes mentioned in the last preceding clause.

3. On payment by the Company of all demands under the foregoing 1st clause, or in the discretion of the said Government of Bengal (on deposit by the Company of all estimated amounts as provided in the 2nd clause), but not before possession shall have been taken under the provisions of the above-mentioned Act, the Secretary of State shall make over possession of the said land to the Company and shall execute and do all such acts and deeds as may be necessary and proper for effectually vesting the same in the Company.

4. The said land shall be held by the Company for the purposes of such building and outhouses, etc., as is hereinbefore mentioned and without the sanction in writing of the said Government of Bengal first had and obtained for no other purpose whatsoever.

Delhi, the 11th February 1915.

No. 302-C.—The following Colonial Office Circular despatch communicating the decision of the Secretary of State for the Colonies to authorise the Imperial Institute to undertake in future for an appropriate fee researches, investigations, analyses, etc., required by private individuals and firms, is published for general information:—

No. 2, dated the 11th September 1914.

SIR,

I have the honour to inform you that my attention has been directed to the yearly increasing demands which are being made on the Imperial Institute by private individuals and firms for reports on technical subjects and especially on the composition and value of raw materials.

2. In the past it has generally been impossible to accede to such requests for investigations from private individuals and firms owing to the pressure of other work. At the same time the conduct of such investigations seems to me to be a legitimate function of the Institute, and I have been given to understand that the demand for such reports would be considerably extended if it were known throughout His Majesty's Possessions that the Institute was prepared to undertake for individuals special reports of the kind indicated in paragraph 8 of the Earl of Elgin's Circular despatch of the 31st of July 1906.

3. The Institute, however, is now so completely occupied with the scientific, technical, and commercial researches demanded by the Agricultural, Mines, and other technical departments of the Governments of those parts of His Majesty's dominions which contribute to its funds that it is impossible to undertake investigations on any considerable scale for private individuals and firms without adding to the technical staff, and therefore to the general expenses, of the Institute. But, having decided to meet what I believe to be a growing demand for such work, I am authorising the Imperial Institute to undertake in future for an appropriate fee researches, investigations, analyses, etc., required by private individuals and firms, either in this country or any of His Majesty's oversea dominions.

4. It will be left to the authorities of the Institute to decide in the case of each application whether or no the request for researches, etc., is one with which the Imperial Institute can properly comply.

5. Any reports which may be supplied under this arrangement will become the property of those who pay for them and will not be communicated either by the Imperial Institute or by any Government to other persons, or published without the consent of those concerned.

6. As it is undesirable that the Imperial Institute should compete with the professional expert, I propose that only special investigations, etc., should be undertaken, *i.e.*, on subjects of a technical character with which the Imperial Institute is exceptionally qualified to deal, especially those relating to the production and utilization of materials which occur in the British Empire or which might be introduced into British countries and are considered likely to be of value to British commerce or trade.

7. It may be useful if I refer to some of the more important matters with which the Imperial Institute is in a special position to deal:—

- (a) Investigations as to the value of new or little known raw materials for commercial purposes.
- (b) Chemical analyses, assays and valuations of raw materials, such as fibres, rubbers, oil-seeds, waxes, food-stuffs, tanning materials, essential and fixed oils, gums, resins, drugs, tobaccos, soils, minerals, ores, waters, fuels, etc., etc.
- (c) The technical testing of rubber, timbers, cottons, fibres, cements, and other materials.
- (d) Identifications of vegetable and mineral substances.

8. I am informed that the Managing Committee are not prepared at present to suggest any actual scale of fees which could meet the variety of cases which are likely to occur. The fee must be arranged between the Institute and the individuals or firms who require investigations to be made. The matter will be in the hands of the Director, who will from time to time report to the Managing Committee the fee proposed in any special case in which this cannot be determined by ordinary practice.

9. I believe that the adoption of the plan I have indicated will increase the usefulness of the Imperial Institute to the manufacturing and industrial communities of all countries of the Empire: and, as it will doubtless be of importance to the residents of the Colony-Protectorate under your government, I shall be glad if you will take steps to make the arrangement I have sanctioned widely known, either by publishing this despatch in whole or part in the Official Gazette or in such other way as may seem to you to be most effective.

I have the honour to be,

Sir,

Your most obedient, humble servant,

L. HARCOURT.

L. J. KERSHAW,

Secretary to the Government of India.

*War Office,
9th September 1914.*

THE following despatch has been received by the Secretary of State for War from the Field-Marshal Commanding-in-Chief, British Forces in the Field :—

7th September 1914.

MY LORD,

I have the honour to report the proceedings of the Field Force under my command up to the time of rendering this despatch.

1. The transport of the troops from England both by sea and by rail was effected in the best order and without a check. Each unit arrived at its destination in this country well within the scheduled time.

The concentration was practically complete on the evening of Friday, the 21st ultimo, and I was able to make dispositions to move the Force during Saturday, the 22nd, to positions I considered most favourable from which to commence operations which the French Commander-in-Chief, General Joffre, requested me to undertake in pursuance of his plans in prosecution of the campaign.

The line taken up extended along the line of the canal from Conde on the west, through Mons and Binche on the east. This line was taken up as follows :—

From Conde to Mons inclusive was assigned to the Second Corps, and to the right of the Second Corps from Mons the First Corps was posted. The 5th Cavalry Brigade was placed at Binche.

In the absence of my Third Army Corps I desired to keep the Cavalry Division as much as possible as a reserve to act on my outer flank, or move in support of any threatened part of the line. The forward reconnaissance was entrusted to Brigadier-General Sir Philip Chetwode with the 5th Cavalry Brigade, but I directed General Allenby to send forward a few squadrons to assist in this work.

During the 22nd and 23rd these advanced squadrons did some excellent work, some of them penetrating as far as Soignies, and several encounters took place in which our troops showed to great advantage.

2. At 6 A.M., on August 23rd, I assembled the Commanders of the First and Second Corps and Cavalry Division at a point close to the position, and explained the general situation of the Allies, and what I understood to be General Joffre's plan. I discussed with them at some length the immediate situation in front of us.

From information I received from French Headquarters I understood that little more than one, or at most two, of the enemy's Army Corps, with perhaps one Cavalry Division, were in front of my position; and I was aware of no attempted outflanking movement by the enemy. I was confirmed in this opinion by the fact that my patrols encountered no undue opposition in their reconnoitring operations. The observation of my aeroplanes seemed also to bear out this estimate.

About 3 P.M. on Sunday, the 23rd, reports began coming in to the effect that the enemy was commencing an attack on the Mons line, apparently in some strength, but that the right of the position from Mons and Bray was being particularly threatened.

The Commander of the First Corps had pushed his flank back to some high ground south of Bray, and the 5th Cavalry Brigade evacuated Binche, moving slightly south: the enemy thereupon occupied Binche.

The right of the 3rd Division, under General Hamilton, was at Mons, which formed a somewhat dangerous salient; and I directed the Commander of the Second Corps to be careful not to keep the troops on this salient too long, but, if threatened seriously, to draw back the centre behind Mons. This was done before dark. In the meantime, about 5 P.M., I received a most unexpected message from General Joffre by telegraph, telling me that at least three German Corps, *viz.*, a reserve corps, the 4th Corps and the 9th Corps, were moving on my position in front, and that the Second Corps was engaged in a turning movement from the direction of Tournay. He also informed me that the two reserve French divisions and the 5th French Army on my right were retiring, the Germans having on the previous day gained possession of the passages of the Sambre between Charleroi and Namur.

3. In view of the possibility of my being driven from the Mons position, I had previously ordered a position in rear to be reconnoitred. This position rested on the fortress of Mauberge on the right and extended west to Jenlain, south-east of Valenciennes on the left. The position was reported difficult to hold, because standing crops and buildings made the siting of trenches very difficult and limited the field of fire in many important localities. It nevertheless afforded a few good artillery positions.

When the news of the retirement of the French and the heavy German threatening on my front reached me, I endeavoured to confirm it by aeroplane reconnaissance; and as a result of this I determined to effect a retirement to the Mauberge position at daybreak on the 24th.

A certain amount of fighting continued along the whole line throughout the night, and at daybreak on the 24th the 2nd Division from the neighbourhood of Harmignies made a powerful demonstration as if to retake Binche. This was supported by the artillery of both the 1st and 2nd Divisions, whilst the 1st Division took up a supporting position in the neighbourhood of Peissant. Under cover of this demonstration the Second Corps retired on the line Dour-Quarouble-Frameries. The 3rd Division on the right of the Corps suffered considerable loss in this operation from the enemy, who had retaken Mons.

The Second Corps halted on this line, where they partially entrenched themselves, enabling Sir Douglas Haig with the First Corps gradually to withdraw to the new position; and he effected this without much further loss, reaching the line Bavai-Mauberge about 7 P.M. Towards midday the enemy appeared to be directing his principal effort against our left.

I had previously ordered General Allenby with the Cavalry to act vigorously in advance of my left front and endeavour to take the pressure off.

About 7-30 A.M. General Allenby received a message from Sir Charles Fergusson, commanding 5th Division, saying that he was very hard pressed and in urgent need of support. On receipt of this message General Allenby drew in the Cavalry and endeavoured to bring direct support to the 5th Division.

During the course of this operation General De Lisle, of the 2nd Cavalry Brigade, thought he saw a good opportunity to paralyse the further advance of the enemy's infantry by making a mounted attack on his flank. He formed up and advanced for this purpose, but was held up by wire about 500 yards from his objective, and the 9th Lancers and 18th Hussars suffered severely in the retirement of the Brigade.

The 19th Infantry Brigade, which had been guarding the Line of Communications, was brought up by rail to Valenciennes on the 22nd and 23rd. On the morning of the 24th they were moved out to a position south of Quarouble to support the left flank of the Second Corps.

With the assistance of the Cavalry Sir Horace Smith-Dorrien was enabled to effect his retreat to a new position; although, having two corps of the enemy on his front and one threatening his flank, he suffered great losses in doing so.

At nightfall the position was occupied by the Second Corps to the west of Bavai, the First Corps to the right. The right was protected by the Fortress of Mauberge, the left by the 19th Brigade in position between Jenlain and Bry, and the Cavalry on the outer flank.

4. The French were still retiring, and I had no support except such as was afforded by the Fortress of Mauberge; and the determined attempts of the enemy to get round my left flank assured me that it was his intention to hem me against that place and surround me. I felt that not a moment must be lost in retiring to another position.

I had every reason to believe that the enemy's forces were somewhat exhausted, and I knew that they had suffered heavy losses. I hoped, therefore, that his pursuit would not be too vigorous to prevent me effecting my object.

The operation, however, was full of danger and difficulty, not only owing to the very superior force in my front, but also to the exhaustion of the troops.

The retirement was recommenced in the early morning of the 25th to a position in the neighbourhood of Le Cateau, and rearguards were ordered to be clear of the Mauberge-Bavai-Eth Road by 5-30 A.M.

Two Cavalry Brigades, with the Divisional Cavalry of the Second Corps, covered the movement of the Second Corps. The remainder of the Cavalry Division with the 19th Brigade, the whole under the command of General Allenby, covered the west flank.

The 4th Division commenced its detrainment at Le Cateau on Sunday, the 23rd, and by the morning of the 25th eleven battalions and a Brigade of Artillery with Divisional Staff were available for service.

I ordered General Snow to move out to take up a position with his right, south of Solesmes, his left resting on the Cambrai-Le Cateau Road south of La Chaprie. In this position the Division rendered great help to the effective retirement of the Second and First Corps to the new position.

Although the troops had been ordered to occupy the Cambrai-Le Cateau-Landrecies position, and the ground had, during the 25th, been partially prepared and entrenched, I had grave doubts—owing to the information I received as to the accumulating strength of the enemy against me—as to the wisdom of standing there to fight.

Having regard to the continued retirement of the French on my right, my exposed left flank, the tendency of the enemy's western Corps (II.) to envelop me, and, more than all, the exhausted condition of the troops, I determined to make a great effort to continue the retreat till I could put some substantial obstacle, such as the Somme or the Oise, between my troops and the enemy, and afford the former some opportunity of rest and re-organisation. Orders were, therefore, sent to the Corps Commanders to continue their retreat as soon as they possibly could towards the general line Vermand-St. Quentin-Ribemont.

The Cavalry, under General Allenby, were ordered to cover the retirement.

Throughout the 25th and far into the evening, the First Corps continued its march on Landrecies, following the road along the eastern border of the Forêt De Mormal, and arrived at Landrecies about 10 o'clock. I had intended that the Corps should come further west so as to fill up the gap between Le Cateau and Landrecies, but the men were exhausted and could not get further in without rest.

The enemy, however, would not allow them this rest, and about 9-30 p.m. a report was received that the 4th Guards Brigade in Landrecies was heavily attacked by troops of the 9th German Army Corps who were coming through the forest on the north of the town. This brigade fought most gallantly and caused the enemy to suffer tremendous loss in issuing from the forest into the narrow streets of the town. The loss has been estimated from reliable sources at from 700 to 1,000. At the same time information reached me from Sir Douglas Haig that his 1st Division was also heavily engaged south and east of Maroilles. I sent urgent messages to the Commander of the two French Reserve Divisions on my right to come up to the assistance of the First Corps, which they eventually did. Partly owing to this assistance, but mainly to the skilful manner in which Sir Douglas Haig extricated his Corps from an exceptionally difficult position in the darkness of the night, they were able at dawn to resume their march south towards Wassigny on Guise.

By about 6 p.m. the Second Corps had got into position with their right on Le Cateau, their left in the neighbourhood of Caudry, and the line of defence was continued thence by the 4th Division towards Seranvillers, the left being thrown back.

During the fighting on the 24th and 25th the Cavalry became a good deal scattered, but by the early morning of the 26th, General Allenby had succeeded in concentrating two brigades to the south of Cambrai.

The 4th Division was placed under the orders of the General Officer Commanding the Second Army Corps.

On the 24th the French Cavalry Corps, consisting of three divisions, under General Sordêt, had been in billets north of Avesnes. On my way back from Bavai, which was my "Poste de Commandement" during the fighting of the 23rd and 24th, I visited General Sordêt, and earnestly requested his co-operation and support. He promised to obtain sanction from his Army Commander to act on my left flank, but said that his horses were too tired to move before the next day. Although he rendered me valuable assistance later on in the course of the retirement, he was unable for the reasons given to afford me any support on the most critical day of all, viz., the 26th.

At daybreak it became apparent that the enemy was throwing the bulk of his strength against the left of the position occupied by the Second Corps and the 4th Division.

At this time the guns of four German Army Corps were in position against them, and Sir Horace Smith-Dorrien reported to me that he judged it impossible to continue his retirement at daybreak (as ordered) in face of such an attack.

I sent him orders to use his utmost endeavours to break off the action and retire at the earliest possible moment, as it was impossible for me to send him any support, the First Corps being at the moment incapable of movement.

The French Cavalry Corps, under General Sordêt was coming up on our left rear early in the morning, and I sent an urgent message to him to do his utmost to come up and support the retirement of my left flank; but, owing to the fatigue of his horses he found himself unable to intervene in any way.

There had been no time to entrench the position properly, but the troops showed a magnificent front to the terrible fire which confronted them.

The Artillery, although outmatched by at least four to one, made a splendid fight, and inflicted heavy losses on their opponents.

At length it became apparent that, if complete annihilation was to be avoided, a retirement must be attempted; and the order was given to commence it about 3-30 p.m. The movement was covered with the most devoted intrepidity and determination by the Artillery, which had itself suffered heavily, and the fine work done by the Cavalry in the further retreat from the position assisted materially in the final completion of this most difficult and dangerous operation.

Fortunately the enemy had himself suffered too heavily to engage in an energetic pursuit.

I cannot close the brief account of this glorious stand of the British troops without putting on record my deep appreciation of the valuable services rendered by General Sir Horace Smith-Dorrien.

I say without hesitation that the saving of the left wing of the Army under my command on the morning of the 26th August could never have been accomplished unless a commander of rare and unusual coolness, intrepidity, and determination had been present to personally conduct the operation.

The retreat was continued far into the night of the 26th and through the 27th and 28th on which date the troops halted on the line Noyon-Chauny-La Fere, having then thrown off the weight of the enemy's pursuit.

On the 27th and 28th I was much indebted to General Sordét and the French Cavalry Division which he commands for materially assisting my retirement and successfully driving back some of the enemy on Cambrai.

General D'Amade also, with the 61st and 62nd French Reserve Divisions, moved down from the neighbourhood of Arras on the enemy's right flank and took much pressure off the rear of the British Forces.

This closes the period covering the heavy fighting which commenced at Mons on Sunday afternoon, 28th August and which really constituted a four days' battle.

At this point, therefore, I propose to close the present despatch.

I deeply deplore the very serious losses which the British Forces have suffered in this great battle; but they were inevitable in view of the fact that the British Army—only two days after a concentration by rail—was called upon to withstand a vigorous attack of five German Army Corps.

It is impossible for me to speak too highly of the skill evinced by the two General Officers commanding Army Corps; the self-sacrificing and devoted exertions of their Staffs; the direction of the troops by Divisional, Brigade and Regimental Leaders; the command of the smaller units by their officers; and the magnificent fighting spirit displayed by non-commissioned officers and men.

I wish particularly to bring to your Lordship's notice the admirable work done by the Royal Flying Corps under Sir David Henderson. Their skill, energy and perseverance have been beyond all praise. They have furnished me with the most complete and accurate information which has been of incalculable value in the conduct of the operations. Fired at constantly both by friend and foe, and not hesitating to fly in every kind of weather, they have remained undaunted throughout.

Further, by actually fighting in the air, they have succeeded in destroying five of the enemy's machines.

I wish to acknowledge with deep gratitude the incalculable assistance I received from the General and Personal Staffs at Headquarters during this trying period.

Lieutenant-General Sir Archibald Murray, Chief of the General Staff; Major-General Wilson, Sub-Chief of the General Staff; and all under them have worked day and night unceasingly with the utmost skill, self-sacrifice, and devotion, and the same acknowledgment is due by me to Brigadier-General Hon. W. Lambton, my Military Secretary, and the Personal Staff.

In such operations as I have described the work of the Quartermaster-General is of an extremely onerous nature. Major-General Sir William Robertson has met what appeared to be almost insuperable difficulties with his characteristic energy, skill and determination, and it is largely owing to his exertions that the hardships and sufferings of the troops—inseparable from such operations—were not much greater.

Major-General Sir Nevil Macready, the Adjutant-General, has also been confronted with most onerous and difficult tasks in connection with disciplinary arrangements and the preparation of casualty lists. He has been indefatigable in his exertions to meet the difficult situations which arose.

I have not yet been able to complete the list of officers whose names I desire to bring to your Lordship's notice for services rendered during the period under review; and, as I understand it is of importance that this despatch should no longer be delayed, I propose to forward this list, separately, as soon as I can.

I have the honour to be,

Your Lordship's most obedient Servant,

(Signed) J. D. P. FRENCH, Field-Marshal.

Commander-in-Chief,
British Forces in the Field.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 11th February 1915, based on the Indian Daily Weather Reports of the period.

1. The disturbance referred to in last week's report occasioned further rain in the United Provinces, Central India and the Central Provinces, and as it advanced eastwards carried widespread rain into northeast India and even into Upper Burma, where rainfall is most unusual at this time of year. It ceased to affect the Indian area on the 8th; but another disturbance entered northwest India on the 6th, and passed eastwards across the country. It was associated with a deep depression, which apparently formed over the west Punjab on the 7th, and heavy precipitation resulted in the western Himalayas and widespread rain in the North-West Frontier Province, the Punjab, the United Provinces and the northern and eastern districts of northeast India. Unlike its predecessor it was not accompanied by low pressure conditions over Gujarat and Rajputana, and consequently rainfall did not extend into Rajputana, Central India or the Central Provinces. In consequence of these disturbances unusually wet weather prevailed during the week over almost the whole of northern India.

2. *Burma*.—Nearly general rain fell on the 6th over the province north of Yamethin.

Northeast India, including Orissa.—There was nearly general rain on the 5th throughout the division, and on the 4th in Bihar and Chota Nagpur.

The United Provinces, Central India and the Central Provinces.—Rainfall was nearly general on 4th in the United Provinces, Central India and the east of the Central Provinces, and on the 9th in the west of the United Provinces.

Northwest India.—Precipitation occurred at nearly every station on the 4th in the east and north Punjab and Kashmir, on the 6th in the North-West Frontier Province, on the 7th in the Punjab, Kashmir and North-West Frontier Province, and on the 8th in the east and north Punjab and Kashmir. Falls of rain were reported from Bikaner and Kotah.

The Peninsula.—Local rain fell on the north Madras coast on the 5th. A few scattered falls of rain occurred during the week in other parts of the division.

3. The chief amounts of precipitation were as follows :—

4th February 1915.	Hazaribagh 1·96", Patna 1·15", Gaya 1·93", Benares 1·32", Bareilly 3·75", Roorkee 2·72", Dehra Dun 2·18", Mussooree 2·91", Sutna 1·23", Pendra 1·67", Simla 1·16", Ludhiana 1·35", and Hanamkonda 0·91".
5th	Cuttack 1·00", Ranchi 0·95", Hazaribagh 1·25", Lucknow 1·14", Masulipatam 1·00" and Waltair 1·26".
7th	Mussooree 2·82", Rawalpindi 1·58", Murree 3·27", Srinagar 0·94", Sonamarg 3·22", Peshawar 2·17", Cherat 5·24", Parachinar 1·40", Bikaner 1·35" and Trivandrum 1·62".
8th	Mukteswar 2·15", Mussooree 3·18", Dehra Dun 1·11", Bareilly 1·50", Agra 1·04", Delhi 1·23", Montgomery 1·28", Srinagar 1·22" and Sonamarg 2·78".
9th	Sonamarg 0·90".
10th	Silchar 0·98", Cherrapunji 1·66" and Narayanganj 1·12".

4. The rainfall of the week was 20 per cent. or more in defect in the Bay Islands, Lower Burma, Baluchistan, Sind, Gujarat, Berar, the Central Provinces West, the Bombay Deccan, Hyderabad North and Madras Southeast. No rain fell in Mysore, but the absence of rainfall there is a normal feature at this time of year. In all the remaining divisions rainfall was 20 per cent. or more in excess.

The rainfall from the 4th December to date is 20 per cent. or more in excess over by far the greater part of the country. It is 20 per cent. or more in defect in Assam, the Punjab Southwest, Baluchistan, Sind and Mysore; and is within 20 per cent. of the normal in Orissa, Kashmir, Central India East and Madras Southeast.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
6th February 1915.

Burma.—Light rain fell in six districts of Lower Burma and slight showers were received in three districts of Upper Burma and the Northern Shan States. Threshing and winnowing of winter rice has been nearly completed. Agricultural operations in connexion with spring rice and miscellaneous crops are proceeding. Standing crops are generally doing well. The price of unhusked rice has fallen slightly at Rangoon.

Assam.—The weather was seasonable. Harvesting of mustard, pressing of sugarcane, hoeing and pruning of tea and ploughing of land for rice and jute are in progress. The outturn of mustard is moderate to poor. The price of common rice has risen slightly. Cattle disease is reported from three districts. Fodder is insufficient in parts of Kamrup.

Bengal.—General rain fell throughout the Province, facilitating ploughing operations for the autumn crops and doing some good to the standing spring crops. Threshing of winter rice is nearly over. Harvesting of the spring crops and pressing of sugarcane continue. Prospects of standing crops are generally reported to be satisfactory. Cattle disease is reported from fourteen districts. The average price of common rice has fallen by about 1·3 per cent as compared with that of the previous week.

Bihar and Orissa.—General rain was received over the Province, the fall being mostly light to moderate. Pressing of sugarcane and harvesting of the early spring crops continue. The recent rain has been beneficial to the late spring crops but has proved somewhat injurious to pulses which are ready for harvesting. The average price of common rice has risen as compared with that of the previous week. The supply of fodder and water is sufficient. Cattle disease is reported from fourteen districts. The condition of standing crops in the Feudatory States of Orissa is good.

United Provinces.—Good and general rain has fallen throughout the Provinces and proved beneficial to standing crops which are doing well. Slight damage to crops by hail, rain, frost and insects is reported from some parts of the Provinces. Pressing of sugarcane and preparation of lands for cane and extra crops are in progress. Prospects are favourable. Agricultural stock is in good condition. Cattle disease is reported from thirteen districts. Fodder and water are sufficient. Markets are full except in Mainpuri and Hardoi where stocks have run low. Prices are rising generally.

Punjab.—Good rain fell in all the reporting districts except in the west where more rain is urgently required. It has greatly benefited wheat and other standing crops. Prospects of the spring harvest are now good. Pressing of sugarcane and harvesting of toria continue, with yield generally average to good. Ploughing for and sowing of extra spring crops are in progress and are normal. Cattle are generally healthy and fodder and water are sufficient. Prices of food grains are generally at scarcity rates.

North-West Frontier Province.—Sufficient rain fell all over the Province except in Dera Ismail Khan. The weather is cloudy at Bannu and bright elsewhere. Standing crops both on irrigated and unirrigated areas are fair. Harvesting of sugarcane continues in Bannu and *gur* is still being made in Peshawar. The condition of cattle is generally good. Fodder and water are procurable. Prices of wheat and maize are high in Peshawar.

Jammu.—Good rain fell during the week. Prices are fluctuating. Wheat sells from 7½ to 12 and maize from 10 to 24 seers per rupee. The condition of standing crops is good. Cattle disease is reported in the Jammu tahsil. Fodder is sufficient.

Kashmir.—Heavy rain fell in Muzaffarabad and heavy snow in the Valley. Cattle disease is reported in Uttarmachhipura and Sripartabsinghpura. Prices are rising in Bara-mulla and are normal elsewhere. Fodder and water are sufficient.

Rajputana.—The weather is cloudy and cold. General rain fell throughout Rajputana and Ajmer-Merwara, the maximum fall being 4·20 cents in Marwar. Standing crops are in good condition. The rain has proved immensely beneficial to crops in the Eastern Rajputana

States and has done good in Tonk and Alwar. Prospects are fair to good. Crops have suffered from hailstorms in Partabgarh, Karauli, Durgapur and Bharatpur and from insects in Tonk. Fodder and water are generally sufficient. Cattle are generally healthy. Prices are stationary but are rising in a few places.

Central India.—The rainfall was general in Gwalior, Indore, Bhopal and Baghelkhand slight in Bundelkhand and the Southern States and nil in Malwa. The fall was sufficient throughout except in Bundelkhand. The weather is cool. Picking of cotton has been finished in Indore and Malwa. Harvesting of autumn crops is in progress. Standing crops are generally good. Crops have been damaged in the Garrauli and Lughasi States of Bundelkhand for want of rain, in parts of Dhar by rats and in parts of Barwani and Alirajpur by hail. Cattle disease prevails in the Nagod State of Baghelkhand and in parts of Alirajpur. The fodder supply is sufficient throughout. Prices are rising in Gwalior, the Nimar district of Indore, Bhopal, Baghelkhand and Malwa and are steady elsewhere. Poppy is being irrigated in Gwalior, Indore and Bhopal.

Central Provinces.—The weather continued to be cool and occasionally cloudy. Light to moderate rain, nowhere exceeding 2 inches, was received all over the Province except in the Berar and Nagpur divisions and was beneficial to the spring crops generally and to the late sown crops especially. Threshing and winnowing of *juar* and picking of cotton have been practically completed. Harvesting of the minor spring crops has begun in certain districts. The supply of fodder and water is adequate. Agricultural stock is in good condition. The price of wheat fell in six districts but it still remains high in others. *Juar* became dearer in Chhindwara and Buldana and cheaper in Wardha by 2 to 2½ seers per rupee. There were no other marked variations in prices.

Feudatory States.—Ten States received moderate rain which was accompanied by severe hail in Kawardha where considerable damage to spring crops is reported. Prospects of spring crops are generally good. Rice rose by 2 seers in Udaipur.

Bombay.—Rain fell during the week in Sind, Ahmedabad, the Panch Mahals, Surat, Satara, Kolaba, the Deccan, Belgaum, Palanpur, Rewa Kantha, Savantwadi and Kolhapur. Cotton picking is progressing in Hyderabad, Thar and Parkar, Nawabshah, Ahmedabad, Broach, Dharwar, Kathiawar, Baroda, Cutch and Rewa Kantha. Harvesting of spring crops continues in the Deccan and the Karnatak. The fodder supply is sufficient except in the area affected by floods and in the hilly tracts of Karachi, two talukas of Thar and Parkar and one taluka of Nawabshah. Cattle are in good condition. Agricultural stock is sufficient except in Ahmednagar and Poona. Drinking water is adequate. Water for irrigation is generally sufficient. Prices have slightly risen in Sind and Gujarat and are generally steady elsewhere.

Hyderabad.—Rain fell in all districts except Nander, Gulbarga, Bidar, Nizamabad and Medak. The highest fall was 3 inches in Parkul. Spring crops are being harvested and are fair to good but have been damaged by rain and insects in parts of the Medak district and by rats in parts of the Aurangabad, Usmanabad and Bidar districts. Late rice is being sown and weeded. Germination of crops is satisfactory. Cattle disease prevails in eight talukas. Prices:—Wheat 5, coarse rice 7½ and *juar* 14½ seers per rupee. The highest price in districts is *juar* 11 seers in Parbhani and Warangal and the lowest 2½ seers in Adilabad.

Mysore.—Rainfall nil. The price of *ragi* has risen in Kolur and that of rice has fallen in Hassan. Markets are well supplied. The outturn of the harvested *ragi* is good and that of paddy, sugarcane, gram, coffee and cotton is fair. Standing crops are in good condition. Prospects of the season are generally good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Threshing of rice and picking of coffee continue. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was fair in the Vizagapatam littoral, Godavari, Kistna and Guntur and light or nil elsewhere. Standing crops are fair to good but are withering or require rain in parts of four districts and have been slightly damaged by rain in parts of one district. Harvesting of paddy, sugarcane and dry crops is proceeding generally with outturn fair to normal. Sowing of paddy and dry crops is proceeding normally. The condition of cattle is generally good. The water supply is sufficient except in parts of Ganjam, Godavari, the Deccan, Nellore, South Arcot, Madura, Tinnevely and central parts except in Coimbatore. Pasture is sufficient except in Guntur, Kurnool and in parts of seven other districts. Fodder is generally sufficient. Prices show a slight tendency to rise.

Felling and extraction of timber and the payment of royalty thereon must be completed in sub-periodic block I by the end of the first seven years of the license, work being similarly completed in sub-periodic blocks II and III by the end of the 11th and 15th years, respectively. Throughout the period of the agreement the Secretary of State for India in Council will retain the right to extract from the licensed areas timber required for local (other than trade purposes and for local public works, and in any sub-periodic block on the expiry of the period allotted for the working thereof to issue licenses or otherwise provide for the felling, extraction, and disposal of timber which the licensees have omitted or are not bound to extract.

5. The padauk trees to be felled will be marked previously by the Forest Department, and none but marked trees shall be felled. The first sub-periodic block in each area will be located in the neighbourhood of Stewart Sound.

6. The minimum annual outturn of padauk timber for the first fourteen years after which the present working-plan will be revised, is estimated as follows, but the accuracy of the estimate is not guaranteed :—

- (i) From the North Andaman including Interview and Bennett Islands—

1,200 sound trees of and over 9 feet in girth,

1,000 exploitable unsound trees,

which may be expected to yield—

2,100 tons of first class logs.

1,400 tons of second class logs.

2,000 tons of third class logs.

- (ii) From the Middle Andaman—

2,400 sound trees of and over 9 feet in girth,

2,000 exploitable unsound trees,

which may be expected to yield—

4,200 tons of first class logs.

2,800 tons of second class logs.

4,000 tons of third class logs.

The outturn for the last six years of the license will be determined by working plans to be drawn up hereafter.

7. In addition the licensees will be permitted to cut, subject to previous marking, should this in the opinion of the Forest Officer be considered desirable, and to such limits as to area and number as may be imposed by the Chief Commissioner of the Andaman and Nicobar Islands from time to time, other species as follows :—

Gurjan over 8 feet in girth, *didu* and *pyinma* over 7½ feet in girth, and *koko*, black *chulgam*, white *chulgam*, white *bambwe*, red *bambwe*, and *taungpein* over 6 feet in girth.

8. The timber will, in all cases, be measured in the round log either at the stump or at collecting depots as may be found convenient by the Forest Department. All felled timber will be held to be at the risk of the licensees and to be liable to the payment of royalty which must be paid before removal from the islands or conversion in a sawmill.

9. For the first three years of the license royalty will be payable at the rates agreed on and on the amount of timber felled : but thereafter minima annual royalties will be payable as follows :—

(i) For the North Andaman, Rs. 1,00,000 per annum.

(ii) For the Middle Andaman, Rs. 1,00,000 per annum.

(iii) In case of a combined license for both islands Rs. 2,00,000 per annum.

10. Except with the special permission of the Divisional Forest Officer all padauk trees, sound or unsound, which have been marked by the forest officers as in their opinion worth conversion, must be felled and royalty paid on them.

11. Should the licensees desire to exploit any form of minor produce or any timber other than those species mentioned above they may be permitted to do so on terms to be settled hereafter by the Chief Commissioner of the Andaman and Nicobar Islands.

12. The licensees will be subject to such restrictions as the Government of India may prescribe to prevent communication between their employés and the convict population in the Andamans.

13. Subject to the general control of the Chief Commissioner of the Andaman and Nicobar Islands the cultivation of field crops solely for the support of the labour force will be permitted free of taxation.

14. Facilities will be provided at Stewart Sound for wireless telegraphy, and as far as may be possible for a weekly steamer or launch connection for postal purposes between this place and Port Blair.

15. Such padauk timber as may be available from departmental working in the areas not included in the first paragraph of this notice, or in sub-periodic blocks in which felling and extraction of timber has been completed by the licensees in accordance with the provisions of paragraph 4 above and as may not be required for local consumption in the islands or for issue to State-worked Railways or other Government departments in India and Burma, will be sold either by public auction or by public tender, provided that the quantity to be so sold annually, commencing from the first of January 1917, shall not exceed 500 tons of squares and 1,000 tons of scantlings. There will be no limit to the quantity of timber other than padauk which may be extracted from the areas under reference, and no restriction as to its disposal.

16. The Inspector-General of Forests, Simla, will answer calls for further information.

17. Tenders must be submitted on forms to be obtained from the Secretary to the Government of India in the Department of Revenue and Agriculture, and must be accompanied by a receipt for the payment into any Government Treasury of a sum of Rs. 1,500 in cash or in Government securities. This deposit will be returned to unsuccessful tenderers, but in the case of persons whose tenders have been accepted will be subject to forfeiture in the event of their failure to execute, within the time specified, the agreement referred to below.

18. All persons whose tenders have been accepted will be required to execute an agreement in a form approved by the Government of India, copies of which can be obtained on application to the Secretary to the Government of India in the Department of Revenue and Agriculture, Simla. This agreement must be signed within three months of the acceptance of the tender.

19. Tenders, marked "Tender for Andamans Timber License," should be submitted so as to reach the Secretary to the Government of India in the Department of Revenue and Agriculture, Simla, on or before the 1st September 1915. The Government of India do not undertake to accept the highest or any tender either for padauk or for other timbers, or to assign any reasons for the refusal or acceptance of any tender.

20. Without the written sanction of the Government of India no transfer, assignment or sub-letting of their license by the licensees will be valid.

HIS MAJESTY'S MINT;
Calcutta, the 16th February 1915. }

G. H. WILLIS, MAJOR, R.E.,
Offg. Master of the Mint.

HISTORICAL RECORD OF THE IMPERIAL VISIT TO INDIA, 1911.

This book, which has been compiled by the Government of India from the official records, contains a complete and authoritative account of the proceedings connected with the visit of Their Imperial Majesties to India and with the Coronation Durbar of December 1911, including lists of the persons taking part in all the various celebrations and ceremonies at which Their Imperial Majesties were present, as well as a large number of illustrations, portraits of Ruling Princes and others, coloured Persian and Sanscrit texts, maps, plans, etc.

The book has been published by Mr. John Murray, Albemarle Street, London, W., and copies are now procurable from all the principal booksellers.

There are two editions—a popular one in a cloth binding, price Rs. 7-8-0, and a very limited edition *de luxe*, price Rs. 250, which has been subscribed for. As the popular edition is strictly limited, and a considerable portion of it has been absorbed in requisitions already received and in the requirements of libraries, schools, etc., it will probably be exhausted very soon after publication. Those who have not yet ordered copies but require them are therefore advised to order at an early date. Application should be made to the Superintendent, Government Printing, India, Calcutta.

SURVEY OF INDIA—EASTERN CIRCLE.**NOTIFICATION.**

Shillong, the 13th February 1915.

No. 1.—Mr. B. C. Newland, Extra Assistant Superintendent, Survey of India is granted privilege leave for 1 month and 7 days with effect from the 8th February 1915 under Articles 246 and 260 of the Civil Service Regulations.

R. CHRICHTON, Lieut.-Col., I.A.,
Superintendent, Eastern Circle.

**ORDERS BY THE HON'BLE THE CHIEF COMMISSIONER,
AJMER-MERWARA.****NOTIFICATION.**

Dated Camp, the 11th February 1915.

No. 2120-984-C.—The Hon'ble the Chief Commissioner is pleased to make the following amendments in the rules published under his notification No. 83—C.—984, dated the 25th January 1900, for regulating the procedure in the acquisition of land under Act I of 1894 and the award and payment of compensation for lands acquired thereunder :—

Substitute the following for rule :—

"1-A. When the land is selected for acquisition every endeavour should be made to avoid religious buildings, tombs, grave-yards, etc. : if this can be done by a slight alteration of the alignment or site chosen. The fact that the land contains religious buildings, tombs or grave-yards should be specifically noted in the application."

"1-B. When a draft notification under section 4 or section 6 is submitted, it shall be accompanied by a statement giving full particulars of any religious buildings, tombs and grave-yards on the land. The Collector shall also prepare and submit confidentially to the Chief Commissioner through the Commissioner a note dealing with the nature of, and weight to be attached to, objections which have already been raised or are likely to be raised by persons directly or indirectly interested or by any section of the public. If no objections have been raised or are anticipated, the fact should be stated and it should at the same time be explained whether in the event of acquisition the demolition of the buildings or obliteration of the tombs will be necessary.

The above procedure may be dispensed with under the orders of the Chief Commissioner in any case in which owing to the large area involved or any other cause the preparation of the necessary statements would cause excessive delay."

"1-C. After publication (under section 4 of the Act) of a notification that land is likely to be needed for any public purpose in any locality, the Collector shall take measures for informing the residents in that locality that such land may be required for a public purpose. To this end the Collector shall cause a notice (in Form I) to that effect to be affixed at convenient places in the locality—in a town at the police-station, and in a village at the Hatai—and shall also cause the same notice to be published by proclamation in the locality. The notice should also warn all persons not to obstruct the operations of any officer who may be authorised by Government to survey or take levels of the land and to mark off the ground which may be required for public purposes under the penalties prescribed by section 46 of the Act."

"1-D. After acquisition proceedings have been initiated, the Collector may himself dispose of any objection raised if they can be settled amicably. If however they cannot be settled amicably or if for any reason the Collector apprehends that the local settlement of such objections may not be accepted by the public, he shall submit it to the Chief Commissioner through the Commissioner for orders. This procedure should be observed with special care when land is acquired for street improvements or for the removal of congested areas as in such cases the proceedings are more public than in ordinary cases and agitations may be fomented more easily."

In rule 7, after "wells and other such property" add a comma and the words "religious buildings, tomb, and grave-yards, etc."

By order,

R. E. A. HAMILTON, Major,

First Assistant to the Agent to the Governor-General, Rajputana,
and Chief Commissioner, Ajmer-Merwara.

DEPARTMENT OF STATISTICS, INDIA.

TRADE FLUCTUATIONS IN SELECTED ARTICLES IN DECEMBER 1914.

The object of the tables below is to show the quantities of the principal staples of agricultural produce imported from the various provinces, etc., and from foreign countries into the ports of Calcutta, Bombay, Karachi, and the Madras ports during the month of December 1914, and for the nine months April to December 1914, as compared with the corresponding periods of 1913. The statistics include foreign seaborne and coasting trade as well as inland (rail and riverborne) trade. They have been furnished by Collectors of Customs, Steamer Companies, Railway Audit Officers, the Commissioners for the Port of Calcutta, etc.

TRADE FLUCTUATIONS IN DECEMBER 1913 AND 1914.

It will be seen from table I, that the imports by rail, river and sea in December 1914, as against the corresponding month of 1913 show (in round numbers) a fall of :—

- 66 per cent in linseed.
(97,000 cwts. as against 259,000 cwts. last year).
- 66 per cent in raw cotton.
(723,000 cwts. as against 2,104,000 cwts. last year).
- 36 per cent in rape and mustard seed.
(139,000 cwts. as against 215,000 cwts. last year).
- 19 per cent in rice.
(1,447,000 cwts. as against 1,779,000 cwts. last year).
- 7 per cent in jute.
(2,475,000 cwts. as against 2,676,000 cwts. last year).

The imports of tea by rail, river and sea into Calcutta show an increase of 22 per cent (252,000 cwts. as against 207,000 cwts. last year) due mainly to larger receipts from Assam and Bengal. The increase of 11 per cent (638,000 cwts. as against 577,000 cwts. last year) in the imports into the ports of gram and pulse, is owing to larger exports from Bihar and Orissa and the United Provinces to Calcutta. The imports of wheat show an increase of 9 per cent (949,000 cwts. as against 869,000 cwts. last year) due to larger exports from the United Provinces to Calcutta, and larger exports from the Punjab to Karachi and Bombay (port). Table X shows the *exports* out of India of wheat month by month during the last three years.

TRADE FLUCTUATIONS IN DECEMBER 1914 AS COMPARED WITH THE PREVIOUS MONTH.

As compared with November 1914, the imports in December into the ports referred to above show (in round numbers) an increase of :—

- 138 per cent in raw cotton.
(723,000 cwts. as against 304,000 cwts. previous month).
- 24 per cent in jute.
(2,475,000 cwts. as against 1,997,000 cwts. previous month).

and a decrease of—

- 38 per cent in wheat.
(949,000 cwts. as against 1,540,000 cwts. previous month).
- 34 per cent in linseed.
(97,000 cwts. as against 149,000 cwts. previous month).
- 32 per cent in tea.
(252,000 cwts. as against 369,000 cwts. previous month).
- 20 per cent in gram and pulse.
(638,000 cwts. as against 797,000 cwts. previous month).
- 15 per cent in rice.
(1,447,000 cwts. as against 1,710,000 cwts. previous month).
- 14 per cent in rape and mustard seed.
(139,000 cwts. as against 162,000 cwts. previous month).

TRADE FLUCTUATIONS IN NINE MONTHS ENDING DECEMBER 1913 AND 1914.

Table I shows increases in the nine monthly total figures of two articles only, namely, tea (18·7 per cent) and rice (7·6 per cent).

The decreases, over the nine months April to December 1914, in the imports were 40 per cent in jute, 35 per cent in linseed, 34 per cent in wheat, 32 per cent in rape and mustard seed, 28 per cent in gram and pulse and 21 per cent in raw cotton.

Exports of jute to Calcutta from Assam fell off by 3 lakhs of cwts. from Bengal by 61 lakhs and from Bihar and Orissa by 5 lakhs. The United Provinces exported to ports 8 lakhs of cwts., Rajputana and Central India 13 lakhs cwts., and the Central Provinces and Berar 8 lakhs cwts. less of linseed. The despatches of wheat from the United Provinces fell off by 51 lakhs of cwts., from the Rajputana and Central India by 24 lakhs and from the Central Provinces and Berar by 30 lakhs. The exports of rape and mustard seed from the United Provinces showed a decrease of 11 lakhs cwts., those of gram and pulse from the United Provinces, the Punjab, and the Central Provinces and Berar of 15 lakhs, 3 lakhs, and 4 lakhs cwts. respectively. The United Provinces despatched 8 lakhs, the Punjab 5 lakhs, the Bombay Presidency 2 lakhs, and the Central Provinces and Berar 5 lakhs, of cwts. less of cotton, raw than in the corresponding period of last year.

The Statistics for December as also for the nine months ending 31st December 1914, are summarised below :—

PAY AND ALLOWANCES—FUNDS.

Dated Delhi, the 24th February 1915.

No. 307 P.-Camp.—Under the authority of His Majesty's Secretary of State for India, the Governor-General in Council directs the publication, in continuation of Finance Department Notification No. 771-P., dated the 17th July 1914, of the following Regulations regarding the "Indian Military Widows' and Orphans' Fund." They come into force with effect from the 1st January 1915.

INDIAN MILITARY WIDOWS' AND ORPHANS' FUND.

I. The following regulations are designed to secure suitable provision for the widows and orphans of officers of the Indian Army, officers of the Indian Medical Service, officers and engineers of the Royal Indian Marine, and Chaplains on the Indian Establishment, not being subscribers under the Indian Military Service Family Pension Regulations; also of continuous service Royal Artillery and Royal Engineer officers, as well as Royal Engineer officers under the 1904 conditions of service, who, not being subscribers under the Indian Military Service Family Pension Regulations, elect to subscribe to this Fund.

II. Such pensions and compassionate allowances as are, by Royal Warrant, granted to the widows and families of military officers of the British Service, are granted from Indian revenues to the widows and families of military officers in the service of the Government of India. It is not intended by the present regulations to impose on the revenues of India any further expenditure for this object except such additional expenditure as may occur under the operation of paragraphs V, VII and VIII. On the other hand, it is not intended that the revenues of India shall in any way profit by these regulations.

III. The Secretary of State for India in Council reserves to himself the absolute right to modify from time to time the contributions to be required from officers, in order to give effect to these principles, and to make any alterations in the regulations that may appear to him equitable: provided always that the scale of pensions shall not be reduced in the case of actual incumbents. The Secretary of State in Council will endeavour to adjust the contributions to be levied from officers exactly, so that they shall neither be too large nor too small to supply the pensions provided by the regulations. But if it should appear on experience that they have been fixed too low, the Government will not require any supplementary retrospective payments; and if they are found to have been fixed too high, no claim to refund will be admitted.

IV. The scheme will be recognised as establishing a Fund which will be shown as such in the accounts of the Government of India, and the balance to its credit will be a debt for which the Government of India will be responsible. Accounts will be kept of all receipts and payments, and at the close of each half-year the Fund will be credited with interest at the rate of 4 per cent. per annum on the mean of the balances as they stood at the beginning and end of such half-year.

V. The rate of interest allowed will in no event be reduced below 4 per cent. per annum; but if at any of the periodical valuations referred to in paragraph VIII it is found that the rate of interest paid on loans secured on Indian revenues has exceeded 4 per cent. for a sufficiently long time to justify the Secretary of State in Council in thinking that the rise is likely to be permanent, the interest allowed on the balance at the credit of the Fund will be increased.

VI. Conversion of sterling into rupees and of rupees into sterling in transactions under these regulations and in the accounts will be made at the rate of fifteen rupees to the pound sterling.

VII. The cost of management will be borne by the State.

VIII. All needful statistics of ages, births, marriages, and deaths will be carefully registered, and these statistics, with the accounts, will be submitted at such periods as may be decided on by the Secretary of State in Council to such actuary or actuaries as he may select, with instructions to investigate and ascertain whether the rates of contribution are such as will, at the rate of interest then to be determined in accordance with paragraph V and at the rate of exchange specified in paragraph VI, supply the pensions payable under these regulations, and no more. The expense of such actuarial inquiries and reports will be borne by the State.

IX. Upon the report of the actuary or actuaries the Secretary of State in Council will order any necessary alterations in the rates of contribution; but it is not the intention that an alteration in the rates of contribution shall be made in respect of a slight variation in mortality or marriage experience disclosed at the particular valuation or in respect of a variation that appears likely to be temporary.

X. The report of the actuary or actuaries, with the orders of the Secretary of State in Council thereupon, will be published in the *Gazette of India*; and any alteration ordered in the rates of contribution will take effect from the beginning of the month following the date of such publication. No retrospective adjustments will be made.

REGULATIONS FOR THE PROVISION OF PENSIONS FOR THE WIDOWS AND ORPHANS OF MILITARY, MEDICAL, MARINE, AND ECCLESIASTICAL OFFICERS IN THE SERVICE OF THE GOVERNMENT OF INDIA.

On payment of the prescribed donations (*see also* Appendix), according to their class at the time of their application, they will be allowed to subscribe for so long as they remain on the Indian Establishment. On reversion to the Imperial Establishment, such officers cannot continue subscribers; but they will be entitled to receive back such portion of their contributions as may be in excess of the risk borne during the term of their membership, in accordance with the terms of Article 30. 5. The contributions for pensions under these regulations, and the pensions of widows, will be regulated by the class of the contributing officer. An officer cannot secure a higher pension for his widow by contributing as if he belonged to a higher class.

As an exception to this rule, the option of subscribing in Class I is allowed as follows :—

12. Donations payable under Tables V, VI and VIII become due from the date on which the liability is incurred, namely, in the case of those under Tables V and VI when a subscriber enters the service of the Government of India married or when he marries, or re-marries, and in the case of those under Table VIII, when the subscriber is admitted to the Fund. These donations may be paid without interest in one sum within one month from the date of becoming due; or they may be paid in twelve equal monthly instalments, interest on the unpaid portion being levied at the rate of 4 per cent. per annum. The balance of any donation outstanding at the date of a subscriber's death will be recovered in accordance with Article 13.

Arrears.

13. Interest at the rate of 4 per cent. per annum will be levied on arrears. The balance of any contribution outstanding at the date of a subscriber's death will be recovered rateably without further interest from the pensions of his widow and orphans in twelve monthly instalments.

* See Articles 20 and 21

Reports of Marriages, Births, and Deaths.

14. An officer who is married at the date of his admission into the service must report the fact of his marriage at the time, and the names and dates of birth of his children, if any have been born to him. A member in the service must report his marriage, or the birth of a child born in wedlock, or the death of a wife or child within one month of the occurrence. These reports must be made in accordance with the instructions given in the Appendix.

15. The birth of every child born alive must be reported; but if a child dies before it is 30 days' old, no payment in respect of it will be required. If the report of birth be not made within one month a fine of 10s. will be imposed, and an additional 2s. will be charged for each succeeding month's delay. After 12 months' delay medical evidence as to the state of the member's health must be furnished in order that it may be determined whether and, if so, on what terms, liability for orphan's pension should be accepted. (See Form J. in Appendix.)

16. If the report of a marriage be not made within one month any donation which may be payable under Tables V and VI will be increased 2½ per cent. and interest thereon charged from the date of marriage. After six months' delay donations will be increased to 5 per cent. and interest charged as above. Should no donation be payable under Tables V and VI a fine of 10s. will be imposed if the report is not made within one month of the marriage, and an additional 2s. will be charged for each succeeding month's delay. In either case, after 12 months' delay, medical evidence as to the state of the subscriber's health must be furnished in order that it may be determined whether and, if so, on what terms, liability for widow's pension shall be accepted. (See Form J in Appendix.)

17. In the event of the report of a marriage or the birth of a child not being made by a subscriber during his lifetime, in accordance with the rules, the widow or child will not be entitled to any benefits.

Posthumous Child.

18. Provided the birth of a posthumous child is reported within one month and the contribution required by the regulations has been or was being paid for the father's youngest child, if any, living at the time of his death, a pension will be granted to the child without any payment if the child is born of a marriage in respect of which the prescribed payments have been made. The report must be made in Form D and a certificate of the child's birth furnished.

Duration of Pensions.

19. If a widow re-marry, her pension will cease during coverture; but if she again become a widow she will be entitled to revert to her pension as widow of her first husband, or, if her last husband have been a contributor, to receive a pension at her option as the widow of her last husband. A widow can only receive one pension.

20. The pension of a male orphan is payable until he attains the age of 21 years.

21. Subscribers can make special provision for pension to sons under the age of 21 years who may become permanently incapacitated from earning a livelihood.

The pensions so provided for will commence at the age of 21, if the son be then fatherless, or after that age on his becoming fatherless, and as regards the amount of such pensions and the subscriptions to be paid to secure them each case will be considered and determined on its merits.

22. The mother or guardian of a male orphan who has attained the age of 16 may, with the sanction of the Secretary of State for India in Council, at any time thereafter (on application in Forms F to H annexed to these regulations), have the residue of his pension commuted into a single payment, for the due application of which the mother or guardian will be held responsible. When the pension is being drawn in India from a Government Treasury there, it will rest with the Government of India to give the required sanction. The following table gives the commuted value of such pensions :—

23. The pension of a female orphan continues until her marriage and then ceases absolutely. It does not revive on widowhood.

Good Conduct.

24. The pensions provided under these regulations shall, in all cases, be held during good behaviour only, and will be withheld if any pensioner is found to be leading an immoral life, or on proof of any gross misconduct. In any such case the order of the Secretary of State for India in Council or, when the pension is being drawn in India from a Government Treasury there, the order of the Government of India shall be final and conclusive.

Alienation of Pension.

25. A pension paid under these regulations may not be transferred or assigned or in any way alienated from the pensioner to whom or for whose benefit it is payable.

Passage Money.

26. An officer may, by a special contribution, provide passage money from India for his widow and orphans. The amount so secured will be paid to the widow, or to any children of the deceased officer, for the provision of their passage money and contingent expenses. If, however, the surviving members of the deceased officer's family are not in India, or do not wish to leave India for any other country, the money will be credited to the deceased officer's estate, and payment can be made in India in rupees, or in England at the official rate of exchange, according to the election of the person or persons entitled to receive the money. The amount secured must not exceed Rs. 3,000 and a health certificate must in every case be furnished by the subscriber.

27. This insurance may be effected by an immediate payment in one sum, or, if the subscriber so desires it, by instalments extending over four years subject to interest on arrears at the rate of $3\frac{1}{2}$ per cent. per annum, and in the event of a subscriber dying before completion of the payment, the balance due at the date of his death will be deducted from the sum assured.

28. On the permanent departure of a subscriber from India with his family, or at any time thereafter, he may take the surrender value of the insurance effected under Article 26.

Officers transferred to the British Army and Officers who resign.

30. Officers who may be transferred from the Indian Army to the British Army, officers of the Indian Medical Service who may be transferred to the Royal Army Medical Corps, officers of the Royal Artillery and the Royal Engineers who revert to the Imperial Establishment, and officers who resign the Service, will be entitled, if married and with or without children, or on account of their children, if widowers, to receive back such portion of their contributions as may be in excess of the risk borne during their membership, but no refund will be made in respect of unmarried subscriptions, nor for risks that have terminated by death or otherwise. None of the above officers can continue subscribers.

As an exception to this rule, an officer who is granted a compassionate allowance on resigning the Service may continue to subscribe at the half-rate of subscription.

Half-pay.

31. Married officers on temporary half-pay must continue to subscribe for full benefits, but while in receipt of half-pay they will have the option of paying only half rates for their wives. In the latter case they will, on retirement, or reversion to full-pay, be required to pay arrears, with interest; and, in the event of the death of a subscriber while on temporary half-pay or before the arrears have been paid, the amount due will be recovered from the pension granted to the widow. Unmarried officers must continue to subscribe at the half-rate of subscription.*

Retired Officers.

32. All officers, whether married, or unmarried, who retire from the Service must continue to subscribe, paying the half-rate of subscription according to their class at the date of retirement. For children the full rate of subscription will be payable.

Any donation for which a retired officer may become liable will be payable at the full rates laid down in Article 11 for all subscribers.

Refunds on Account of Deceased Unmarried Subscribers.

33. The whole of the subscription which has been paid by an officer who has remained unmarried up to the date of his death will be refunded, without interest, to his estate.

In the case of an officer who at his death was subscribing as a widower without surviving children eligible for pension, the subscriptions paid by him for the period during which he so subscribed, excluding any such period prior to a re-marriage, will be refunded, without interest, to his estate.

Dismissed Officers.

34. An officer who is dismissed the Service by sentence of a court-martial, or by other competent authority, will cease, *ipso facto*, to be a contributor to this Fund, and will have no claim to any refund. His family will not be entitled to any pensions from this Fund.

After the expiration of three months they will be required to produce a medical certificate of good health before they can be permitted to do so (see Form J in Appendix).

Continuous service officers of Royal Artillery or Royal Engineers will be called upon by the authorities in India to say whether they desire to become subscribers. In the event of their electing to do so, their subscriptions and donations will be due from the date on which they became continuous service officers.

Officers who do not exercise the option of subscribing within three months from the date of their electing for continuous service will not be allowed the advantages in regard to the date of commencing to pay interest, given by Article 12. The Governor-General in Council concurs in the opinion expressed by His Excellency the Commander-in-Chief regarding the manner in which the operations were conducted and the behaviour of the troops engaged. His Excellency in Council also shares the Commander-in-Chief's appreciation of the support rendered by the Royal Navy which conduced so materially to the success of the operations.

From—The Chief of the General Staff.

To—The Secretary to the Government of India, Army Department.

I am directed by His Excellency the Commander-in-Chief in India to submit for the information of the Government of India the undermentioned reports on the operations of Indian Expeditionary Force "D" up to the 28th November 1914:—

- (i) Report by Brigadier-General W. S. Delamain, C.B., D.S.O., on the operations of I. E. F. "D" up to the 14th November 1914; and

2. His Excellency considers that the operations were conducted with skill and energy and that the discipline and steadiness of the troops reflect the greatest credit on all ranks. He desires to commend to the favourable consideration of Government the officers, non-commissioned officers and men whose services are brought to notice in the reports, and wishes specially to invite attention to Lieutenant-General Sir Arthur Barrett's remarks in regard to the very valuable assistance rendered by the Royal Navy which he cordially endorses.

3. His Excellency recommends that the reports be treated as despatches and published in the *Gazette of India*.

No. B. M.-11, dated Camp Saniyah, 16th November 1914.

From—Brigadier-General W. S. Delamain, C.B., D.S.O., Commanding, 16th Brigade, I. E. F. "D,"

To—The Chief of the General Staff, Simla.

On the arrival of Lieutenant-General Sir A. A. Barrett at this camp and on conclusion of my period of independent command I have the honour to report as follows:—

2. The force under my command, known as I. E. F. "D," left Bombay on the 16th October in four transports, part of a large convoy. On 19th October we parted company and steered for Bahrain Islands, under escort of H. M. S. "Ocean." No. 1 Brigade, Indian Mountain Artillery, joined the force off Jask on the 21st. We arrived on the 23rd and anchored off Manama. Here we remained until the 2nd November.

3. On that date the Force sailed for the mouth of the Shatt-el-Arab in compliance with instructions contained in your radio-telegram No. 6571. Pilots were taken on board off Bushire and the Force arrived at the outer bar of the river on the evening of the 3rd November.

4. The 4th and 5th November were occupied with naval preparations and the transports themselves were prepared with bullet proof cover on the upper decks for the use of parties detailed for covering fire.

Major Radcliffe, 2nd Dorset Regiment, returned from Kuwait on 5th with information that the Fort was in ruins but that guns were in position. A landing force was detailed for the capture of Fao, under Lieutenant-Colonel H. L. Rosher, 2nd Dorset Regiment, and orders issued. On the 5th the transports crossed the outer bar of the Shatt-el-Arab and anchored just outside the inner bar.

5. At 6 A. M. on 6th November H. M. S. "Odin," preceded by launches sweeping for mines, stood in and bombarded the Turkish guns outside the Fort, 3 miles south-east of the telegraph station at Fao. The hostile guns were soon silenced; they were well served for a time and hit the "Odin" twice. On the signal being made that the guns were silenced the transports "Umaria" and "Varela" advanced in that order, each towing 8 boats full of troops

alongside; the "Mashona" (armed launch) towed 7 boats full of troops and the Royal Navy steam launches towed the detachment of Marines from H. M. S. "Ocean." Off the telegraph station the boats were cast off and made for the shore. Some 600 Infantry landed with 1 section, Mountain Artillery, complete with mules and 1 squad, Sappers and Miners. There was no opposition. When the 1st and 2nd reinforcements had also landed, Colonel Rosher assembled his force and marched south-eastwards to occupy the Fort. This was accomplished during the night of the 6th—7th, the guns were dismounted and thrown into the river and Colonel Rosher's command returned to Fao.

6. While the troops who had landed were being re-embarked on the 7th November, the General Officer Commanding with remaining transports proceeded up the river till within sight of the Oil Refinery on Abadan Island. On the 8th November the river was reconnoitred for a suitable landing place. A firm high bank with deep water close up to it was found at Saniyeh; the transports were called up and troops began to disembark. The disembarkation continued during 9th and 10th November being practically complete by evening of latter date.

7. It was proposed to advance from this camp and attack the Turks at Shamshumiya by land, but the reported advance of Turkish troops from Basrah and the necessity of safeguarding the Oil Works combined with the absence of news from India regarding the arrival of reinforcements decided me to remain at Saniyeh. With the intention of an early forward movement, as little baggage and supplies as possible were landed at this camp. Reconnaissances both up and down stream on the 9th and 10th failed to discover any enemy.

8. On the evening of the 10th reliable news was received from the Sheikh of Mohammerah that Sami Bey with a strong combined force of Turks and Arabs had arrived from Basrah at a point opposite Mohammerah with the intention of attacking our camp. At 3 a.m. on the 11th the Sheikh reported that Sami Bey had started to make the attack. Troops were turned out and outposts strengthened. The Turkish force, of whom over 300 were actually seen, delivered a determined attack at 5-30 a.m. on an advanced post held by one double company 117th Mahrattas with 2 machine guns. They advanced to within 50 yards of the post but were driven off by a dashing counter-attack delivered by the 20th Duke of Cambridge's Own Infantry, with the assistance of the 23rd Peshawar Mountain Battery. The enemy lost heavily in their retirement across the desert, 19 dead were counted, 14 wounded were brought in by us and 6 prisoners were taken. Abandoned rifles and equipment were found. The Turks officially acknowledged a loss of 80 men.

9. The defences of the camp were further strengthened and daily reconnaissances made. On the 14th November, Lieutenant-General Sir A. Barrett with the 18th Brigade and Divisional Troops arrived at this camp.

10. I would invite attention to the difficulties of communication in the Persian Gulf during the period covered by this report. Constant thunderstorms interrupted the wireless system. The installation on R. I. M. S. "Daihousie," is apparently of poor quality and the operators not very experienced. This ship had to be stationed at Bushire to connect with the cable there. The wireless station at Jask was frequently in communication with H. M. S. "Ocean" in the sense that the station would answer the call of the warship but it would not take in any message for transmission. No night watch is kept at Jask.

11. Several points to which I would earnestly invite attention are mentioned in the "Notes" made at intervals in the "War Diary" which is forwarded by the same mail as this report.

12. I would mention that the stay of the Force at Bahrain was of advantage as it enabled me to have British and Indian Corps instructed in rowing and handling of boats and to rehearse the operation of a landing in force.

13. All ranks have performed their duties in a most zealous and creditable manner.

14. I would bring to notice the great assistance given me by the following officers in planning and carrying out the operations for the occupation of Fao and the landing at this camp:—

Captain Hayes-Sadler, R.N., Senior Naval Officer, H. M. S. "Ocean."

Commander Hamilton, Royal Indian Marine, Principal Marine Transport Officer.

15. I would also report that the masters of the various transports* gave all the assistance in their power. I would specially bring to notice the name of Mr. T. L. Mills, R.N.R., Master of the S.S. "Varela," British India Steam Navigation Company, who displayed great zeal and willingness to perform operations beyond those usually required of a master of a merchant vessel. I trust

that it will be found possible to recognize his services.

16. In connection with the Turkish night attack on the 11th November I would report that the counter-attack I ordered on the attacking force was carried out in a most dashing and skilful manner by the 20th Duke of Cambridge's Own Infantry and the 23rd Peshawar Mountain Battery under the command of Lieutenant-Colonel C. Rattray, 20th Infantry.

REPORT OF OPERATIONS OF INDIAN EXPEDITIONARY FORCE "D" FROM 14TH TO 28TH NOVEMBER 1914.

No. 101-G., dated Basmah, the 7th December 1914.

From—Lieutenant-General Sir A. A. BARRETT, K.C.B., K.C.V.O., Commanding Indian Expeditionary Force "D".

To—The Chief of the General Staff, Army Headquarters, Delhi.

I have the honour to submit for the information of His Excellency the Commander-in-Chief, the following report of the operations of the troops under my command from the 14th to the 28th November 1914.

2. On the morning of the 14th November, the S.S. "Elephanta", with my Headquarters, and four other transports anchored in the river opposite Saniyeh, where Brigadier-General Delamain's force was already bivouacked. The disembarkation of the troops was commenced at once. Infantry used the ships' boats and experienced no difficulty in getting ashore. The landing of the guns, wagons and horses of the field artillery and of the cavalry horses in lighters and dhows was greatly delayed by the strong tide and current, the want of proper landing places, and by the shortage of lighters and steam craft for towing purposes. Every possible use was made of all the craft available, and with the hearty co-operation of the officers and men of the Royal Navy, the Indian Marine and the transports, considerable progress was made. The hatch covers of the transports were utilised as ramps for horses and guns, while excellent work was done by the Sapper companies.

3. In the course of the day I learnt from General Delamain of the presence of a hostile force at Saihan, four miles distant, and I ordered him to attack it the following morning. A full account of the action which ensued will be found in the attached report from General Delamain. I have already mentioned, in my telegraphic report of this action, my appreciation of the skilful and spirited manner in which this attack was carried out, and of the credit due to all who were engaged. The result was entirely satisfactory, as it enabled our advance on the 17th November to take place without our right flank being harassed.

4. Our information on the evening of the 16th was to the effect that a force of the enemy would probably be met with about* Sahil and Zain, while his main body was believed to be in position at Balyaniyeh. At that time the whole of the cavalry, sappers, and the infantry of the 18th Brigade had been landed, but only one battery of the 10th Brigade, Royal Field Artillery. I was informed that the Sheikh of Mohammerah was apprehensive of an attack on Failieh from the enemy's forces on the left bank, and also that the attitude of the neighbouring Arabs would depend, to a great extent, upon our ability to make headway against the Turks without undue delay. I therefore decided that it would be in our best interests to advance at once, with the whole of the force then at my disposal, leaving the remaining field batteries to be disembarked as rapidly as possible and to follow us as soon as circumstances would permit.

5. A copy of operation orders issued for Tuesday the 17th November will be found attached.† My intention was to turn the enemy's right flank, and drive him through the palm groves on to the river, so that the two sloops, "Odin" and "Espiegle", which moved up the river on a level with our advance, might be able to co-operate.

6. After leaving the bivouac we moved across the open desert, the surface of which, owing to recent rain, was still very muddy in places, though fortunately free from creeks or other obstructions.

At 8-50 A. M. a report was received from the advanced guard to the effect that the enemy's position extended from a ruined mud fort, which was plainly visible, somewhat to the right of our line of advance, north-westwards

* This report proved substantially correct, except that their position extended about $\frac{1}{2}$ mile to the S. of Old Fort along the date-palm belt.

through Hassanain to Zain.† At 10 A.M. the enemy's guns opened fire. I then ordered the 110th Mahratta L. I. to reinforce the advanced guard and moved up the 16th Brigade on its right, leaving a space between the two brigades for the artillery to come into action, and retaining as reserves the 48th Pioneers and the 120th Infantry. Each of the two Brigade commanders had then at his disposal three battalions of infantry and a company of sappers, with the cavalry covering the left flank of the whole force, and the two sloops on the river to our right, though at some distance, with only the tops of their masts appearing above the belt of palm trees. The whole of the artillery, consisting of the 23rd and 80th Mountain Batteries, and the 63rd Battery, Royal Field Artillery, subsequently joined by three guns of the 76th Battery, which were hurried up during the action from the landing place, were placed under the Commander, Royal Artillery.

7. While these dispositions were being made, a heavy downpour lasting for half an hour came on. The front was entirely obscured, while the surface of the ground was converted into a quagmire ankle deep over which guns and horses could only move at a walk. The enemy's guns ceased firing, and I was in some doubt as to whether he intended to maintain his position. Our troops continued to advance steadily until 11-45 A.M., when the enemy simultaneously opened a heavy gun, rifle and machine gun fire along his whole front. Our artillery and infantry

also came into action. After watching the course of the engagement for some time, I came to the conclusion that it would be advisable to abandon my original intention of turning the enemy's right, which extended some distance, and was echeloned back into broken ground and palm groves. The key of his position appeared to be the old mud fort. I, therefore, sent word to General Fry with the 18th Brigade to engage the enemy's right and centre with a frontal attack, while General Delamain with the 16th Brigade turned his left flank and captured the fort. At the same time I reinforced General Delamain with a battalion from the reserve. General Delamain had meanwhile anticipated my intentions and had already commenced the turning movement. It was at this stage that a large number of casualties occurred on our right, especially in the 2nd Dorset Regiment, which had been the first to come into action, and had met with heavy fire in an exposed position, not only from the mud fort and trenches in front of it, but also from a body of the enemy entrenched on the edge of the palm groves behind and to the south of it. These Turkish regulars were using smokeless powder and were invisible from the point where the guns were in action, the latter being fully engaged with the enemy's artillery and with the long line of entrenchments on the main front Hassanain-Zain. The sloops on the river managed to put a few shells into the mud fort, but were soon obliged to desist owing to their view being obstructed by the belt of palm trees. The turning movement was very skilfully carried out by portions of the 104th Infantry, the 117th Mahrattas and the 22nd Company, Sappers and Miners, and was directed by General Delamain himself. The 18th Brigade and the main body of the 16th Brigade also pressed on steadily, supported by very efficient fire from our artillery. At 1-15 P.M. the whole of the enemy's line quitted its entrenchments and fled rapidly to the right rear into the broken ground and palm trees, his guns covering the retirement, and finally being skilfully withdrawn from successive positions in the same direction under cover of long earthen embankments, which concealed them from view. The whole of our force advanced firing heavily and doing considerable execution, but the enemy's losses would have been much greater if the state of the ground had not precluded rapid movement, more especially on the part of the cavalry and artillery.

Two abandoned mountain guns fell into the hands of the 7th Rajputs, who were on the left of the line, and numerous prisoners were captured.

At 2-50 P.M. I thought it advisable to issue orders for the pursuit to be stopped. The enemy were then retiring through the palm groves, with banks and mud walls affording facilities for defence, and their retirement was covered by distant fire from their guns. I had to form an entrenched camp before night-fall, and to bring in a large number of wounded, who were scattered over a considerable extent of country.

The enemy's losses have been variously estimated, and probably amounted to about 2,000. Two days after the action 69 dead bodies were found lying in one portion of the position. His total strength is estimated at 3,000 Turks and 1,500 Arabs, with 12 guns.

*Not reproduced. The troops bivouacked at Sahil on the banks of the river with outposts on the line Sahil—Old Fort—to river bank, *vide sketch* map*.

The conduct of the troops throughout this engagement excited my warmest admiration. A very large majority of the men had never been under fire before, yet they behaved as steadily as if at an ordinary field-day, all the details of their training, as inculcated in peace time, being carried out automatically. The behaviour of the Dorset Regiment, when exposed to both frontal and enfilade fire, is especially to be commended. General Delamain has also brought to notice the 22nd Company, Sappers and Miners, who were on the right of the Dorsets.

The enemy's guns were well served and cleverly handled, but fortunately the fusing of the shells was indifferent and the elevation generally too great. Their rifle fire was also too high, and not very effective at close quarters, otherwise our losses would have been much heavier. Our artillery suffered for want of observation posts, but in spite of this their fire was highly effective, and, as was afterwards ascertained, produced a demoralising effect on the enemy.

As may be gathered from the above report, the duties of the commanders of brigades and of other units, as also of the staff were carried out most efficiently. I propose to defer bringing the names of individual officers to notice until the operations of this Force as a whole are finally recorded. At this stage I need only mention those who were especially conspicuous during the actions of the 15th and 17th, as set forth in the brigade commanders' reports attached.

The work of bringing in the wounded continued far into the night, and one ambulance party actually remained out all night, in spite of the fact that the enemy were firing on our piquets at intervals. I desire to pay a very high tribute to the personnel of the medical services, both for efficiency of organization, and for devotion to duty. In addition to our own men, a large number of wounded Turks and Arabs had to be cared for and conveyed on board the transports, at a spot where shelving mud flats and a strong current made boating operations extremely troublesome and at times even hazardous.

On the afternoon of the 17th, it was blowing a hurricane for several hours, in the course of which 3 large dhows lying alongside the transports, laden with stores ready to disembark, were wrecked, and 10 sepoys and two lascars were drowned.

On the 18th, 19th and 20th we were employed in landing supplies and blankets for the troops, and in reconnoitring the enemy's position at Balyanish, which was found to be at right angles to the river, with four guns in position on the bank commanding the north end of Dabba Island, where the S.S. "Ekbatana" and two smaller craft had been sunk to block the ship channel. The naval sloops engaged these guns from below the obstruction, and, as was discovered afterwards, placed a shell inside the battery.

I formed a plan of attack to be carried out on the 22nd in which naval and military forces were to co-operate, but on the 21st I received trustworthy information, confirmed by our cavalry, that the enemy had vacated his position. The report stated that the Turks had quitted Basrah and retired northward in boats to Baghdad, that numbers of armed Arabs had deserted, and that the town of Basrah was in danger of being looted.

Accordingly, I ordered a forced march for 8 p.m. that evening, while the naval sloops were to proceed by river to Basrah, and two battalions were hastily got on board shallow draft steamers to follow them. We started across the desert at 8 o'clock, and at 12 noon the next day we reached the outskirts of Basrah, after a march that was extremely trying to the troops. Frequent delays were caused by the high banks of water channels, which had to be levelled, and in some cases bridged to admit the passage of field guns.

On arrival at Basrah, we learned that the two sloops had got in at 9 p.m. the previous evening, and had succeeded in protecting the buildings on the river bank, to which no damage had been done, except the partial burning of the Custom House and destruction of its contents.

The two battalions had arrived at 9 a.m. on the 22nd and were then patrolling the town, which was perfectly orderly.

I therefore decided to defer making a formal entry into the town until the next morning, as the troops were badly in need of food and rest, and it would have been difficult to arrange quarters for them until the place had been more fully examined.

On the 23rd the troops made a ceremonial march through the town to a selected spot near the mouth of the Ashar Creek, where the foreign Consuls and notables were assembled to meet us, and were presented to me by Mr. Bullard, our late Consul. A proclamation prepared by Sir Percy Cox was then read, the Union Jack was hoisted on a prominent building, a salute was fired from the sloops, the troops presented arms, and three cheers was given for His Majesty the King-Emperor. The German Consul and five other Germans were placed on board transports for conveyance to India.

We were cordially welcomed by the inhabitants, who appeared eager to transfer their allegiance to the British Government.

In concluding this report, I wish to lay stress upon the very great assistance that I have received throughout from Captain Hayes-Sadler, R. N., the Senior Naval Officer in the Persian Gulf, and the officers and men serving under him, without which it would have been quite impossible to bring these operations to a successful issue.

I am also much indebted to Sir Percy Cox for his advice and help on all occasions, and for the valuable and accurate information that he was able to procure for me, chiefly through the Sheikh of Mohammerah, who, at the risk of drawing upon himself the hostility of the Turks has spared no pains to prove himself our true friend and ally.

I reserve for a future report an acknowledgment of the good services done by the officers of the Royal Indian Marine, whose duties in connection with naval transport work have been most onerous.

We have also received very ready help throughout from the officers and men of the transports belonging to the British India Steam Navigation and other companies.

Extract from a Report by Brigadier-General W. S. Delamain, D.S.O., on the Operations of the 14th November 1914.

* * * * *

Information from various sources went to show that Turkish troops were concentrating near Saihan only four miles west of our camp at Saniyeh; and on the 14th November I received the Force Commander's instructions to reconnoitre and dislodge this hostile gathering without involving my own force too seriously. I thereupon issued Operation Order No. 7.

The force under my command consisted of the 30th Mountain Battery, the 2nd Battalion, Dorset Regiment, and the 104th Rifles, with 23rd Mountain Battery and the 20th Infantry in camp held ready to reinforce if we became engaged.

The force marched at 6 A.M. from Camp Saniyeh and on reaching the southern edge of the date palms turned westwards, the Advanced Guard (Major Clarkson, 1 Section Mountain Battery, 4 Companies 2nd Dorsets) keeping 1,200 yards from the edge of the date groves and followed by the Main Body at approximately the same distance.

The march was continued in this order till the Advanced Guard was approximately south of Saihan village and creek at 7 A.M. At 7-10 A.M. the enemy opened fire on the Advanced Guard from two positions on the edge of the date groves with rifles and machine guns and on the main body with artillery. The 104th Rifles were sent immediately to turn and capture the enemy's first position and then to work through the date groves from the east. The Mountain Battery (2 Sections) assisted the 104th Rifles and 1 Section kept the hostile guns in the Turkish second position in check. The 104th took the first Turkish position in capital style about 8-30 A.M. At the same hour the reinforcements arrived from camp.

The Advanced Guard was then reinforced by the remaining half battalion of the 2nd Battalion, Dorset Regiment, and extended to their left so as to outflank the second Turkish position from the desert side. The 30th Mountain Battery was put under the orders of the Officer Commanding, 2nd Battalion, Dorset Regiment, who now commanded the Advanced Guard. The 20th Infantry (less 4 Companies) filled the gap between the Advanced Guard and the 104th Rifles on our right, leaving the 4 Companies of the 20th Infantry and 23rd Peshawar Mountain Battery in general reserve under my own hand. A general advance was then made on the second Turkish position, assisted by the admirably directed fire of both the Mountain Batteries, from which the enemy suffered severely. The position was entrenched and held by the Turks with determination. It was gallantly rushed by the 2nd Battalion, Dorset Regiment, about 9-30 A.M. The enemy made off northwards through the date palms.

In the meanwhile, the 104th Rifles on our right found the ground inside the wood very difficult owing to the numerous irrigation cuts. They pushed forward slowly till they reached the line held by the 2nd Dorsets and the 20th Infantry, meeting with strong opposition at a fortified village, where there were posted 1 gun and 1 machine gun.

The arrival of Turkish reinforcements from their force near Umm-ur-Rowais might now be expected at any minute.

In view, therefore, of my instructions not to get too seriously engaged, I ordered a withdrawal to camp, after doing considerable damage to the Turkish camp. The retirement was unmolested.

H. M. S. "Odin" co-operated in the action by steaming up the river parallel with the troops, but owing to the impossibility of observing fire through and over the belt of date palms, her fire was necessarily restricted to a minimum.

I estimated the enemy's strength at 1,200 with 4 mountain guns and 3 machine guns. From information given by prisoners the force appears to have been considerably stronger. I put their losses at 160 dead and wounded unable to move. We took prisoners 6 unwounded and 19 wounded, including a battalion commander.

Our casualties came to :—

Captain Maclean, 104th Rifles.	}	Severely wounded.	
Lieutenant Yeatman, 2nd Battalion, Dorset Regiment.			
Rank and file.	led.	Wounded.	Missing.
2nd Battalion, Dorset Regiment	5	38	Nil.
104th Rifles	8	14	"
20th Infantry	2	"
No. 1 Brigade, Indian Mountain Artillery.	1	..

The behaviour of all the troops was admirable. The co-operation between artillery and infantry was good.

I would mention that the information regarding the enemy obtained by Major H. Smyth, Special Service Officer, proved to be absolutely correct.

I bring to notice the good work done by the following :—

- Lieutenant-Colonel H. L. Rosher, 2nd Battalion, Dorset Regiment, who commanded the main attack on the enemy's position in an able manner.
- Major H. A. Holdich, Brigade Major, 16th Brigade. An able Staff Officer who gave me the greatest assistance during the engagement.
- Lieutenant E. B. Allnutt, R.A.M.C., in medical charge of the 2nd Battalion, Dorset Regiment, reported as having displayed great gallantry in attending the wounded on the open plain.
- Bugler Surain Singh, 20th Duke of Cambridge's Own Infantry, reported by the Officer Commanding, 104th Wellesley's Rifles, as having very bravely set fire to a village held by the enemy.

The force owed much to his skill and devotion to duty, and I trust that it may be found possible to recognise his services.

War Office,

18th October 1914.

The following despatch has been received by the Secretary of State for War from the Field-Marshal Commanding-in-Chief, British Forces in the Field :—

5th October 1914.

MY LORD,

I have the honour to report the operations in which the British Forces in France have been engaged since the evening of the 10th September.

1. In the early morning of the 11th the further pursuit of the enemy was commenced; and the three Corps crossed the Ourcq practically unopposed, the Cavalry reaching the line of the Aisne River; the 3rd and 5th Brigades south of Soissons, the 1st, 2nd and 4th on the high ground at Couvrelles and Cerseuil.

On the afternoon of the 12th from the opposition encountered by the 6th French Army to the west of Soissons, by the 3rd Corps south-east of that place, by the 2nd Corps south of Missy and Vailly, and certain indications all along the line, I formed the opinion that the enemy had, for the moment at any rate, arrested his retreat and was preparing to dispute the passage of the Aisne with some vigour.

South of Soissons the Germans were holding Mont de Paris against the attack of the right of the French 6th Army when the 3rd Corps reached the neighbourhood of Buzancy, south-east of that place. With the assistance of the Artillery of the 3rd Corps the French drove them back across the river at Soissons, where they destroyed the bridges.

The heavy artillery fire which was visible for several miles in a westerly direction in the valley of the Aisne showed that the 6th French Army was meeting with strong opposition all along the line.

On this day the Cavalry under General Allenby reached the neighbourhood of Braine and did good work in clearing the town and the high ground beyond it of strong hostile detachments. The Queen's Bays are particularly mentioned by the General as having assisted greatly in the success of this operation. They were well supported by the 3rd Division, which on this night bivouacked at Brenelle, south of the river.

The 5th Division approached Missy, but were unable to make headway.

The 1st Army Corps reached the neighbourhood of Vauxcéré without much opposition.

In this manner the Battle of the Aisne commenced.

2. The Aisne Valley runs generally East and West, and consists of a flat-bottomed depression of width varying from half a mile to two miles, down which the river follows a winding course to the West at some points near the southern slopes of the valley and at others near the northern. The high ground both on the north and south of the river is approximately 400 feet above the bottom of the valley and is very similar in character, as are both slopes of the valley itself, which are broken into numerous rounded spurs and re-entrants. The most prominent of the former are the Chivre spur on the right bank and Sermoise spur on the left. Near the latter place the general plateau on the south is divided by a subsidiary valley of much the same character, down which the small River Vesle flows to the main stream near Sermoise. The slopes of the plateau overlooking the Aisne on the north and south are of varying steepness, and are covered with numerous patches of wood, which also stretch upwards and backwards over the edge on to the top of the high ground. There are several villages and small towns dotted about in the valley itself and along its sides, the chief of which is the town of Soissons.

The Aisne is a sluggish stream of some 170 feet in breadth, but, being 15 feet deep in the centre, it is unfordable. Between Soissons on the west and Villers on the east (the part of the river attacked and secured by the British Forces) there are eleven road bridges across it. On the north bank a narrow-gauge railway runs from Soissons to Vailly, where it crosses the

river and continues eastward along the south bank. From Soissons to Sermoise a double line of railway runs along the south bank, turning at the latter place up the Vesle Valley towards Bazoches.

The position held by the enemy is a very strong one, either for a delaying action or for a defensive battle. One of its chief military characteristics is that from the high ground on neither side can the top of the plateau on the other side be seen except for small stretches. This is chiefly due to the woods on the edges of the slopes. Another important point is that all the bridges are under either direct or high angle artillery fire.

The tract of country above described, which lies north of the Aisne, is well adapted to concealment, and was so skilfully turned to account by the enemy as to render it impossible to judge the real nature of his opposition to our passage of the river, or to accurately gauge his strength; but I have every reason to conclude that strong rearguards of at least three army corps were holding the passages on the early morning of the 13th.

3. On that morning I ordered the British Forces to advance and make good the Aisne.

The 1st Corps and the Cavalry advanced on the river. The 1st Division was directed on Chanouille *via* the canal bridge at Bourg, and the 2nd Division on Courtecon and Presles *via* Pont-Arcy and on the canal to the north of Braye *via* Chavonne. On the right the Cavalry and 1st Division met with slight opposition, and found a passage by means of the canal which crosses the river by an aqueduct. The Division was therefore able to press on, supported by the Cavalry Division on its outer flank, driving back the enemy in front of it.

On the left the leading troops of the 2nd Division reached the river by 9 o'clock. The 5th Infantry Brigade were only enabled to cross, in single file and under considerable shell fire, by means of the broken girder of the bridge which was not entirely submerged in the river. The construction of a pontoon bridge was at once undertaken, and was completed by 5 o'clock in the afternoon.

On the extreme left the 4th Guards Brigade met with severe opposition at Chavonne, and it was only late in the afternoon that it was able to establish a foothold on the northern bank of the river by ferrying one battalion across in boats.

By nightfall the 1st Division occupied the area Moulins-Paissy-Geny, with posts in the village of Vendresse.

The 2nd Division bivouacked as a whole on the southern bank of the river, leaving only the 5th Brigade on the north bank to establish a bridge head.

The Second Corps found all the bridges in front of them destroyed, except that of Condé, which was in possession of the enemy, and remained so until the end of the battle.

In the approach to Missy, where the 5th Division eventually crossed there is some open ground which was swept by heavy fire from the opposite bank. The 13th Brigade was, therefore, unable to advance; but the 14th, which was directed to the east of Venizel at a less exposed point, was rafted across, and by night established itself with its left at St. Marguerite. They were followed by the 15th Brigade; and later on both the 14th and 15th supported the 4th Division on their left in repelling a heavy counter-attack on the Third Corps.

On the morning of the 13th the Third Corps found the enemy had established himself in strength on the Vregny Plateau. The road bridge at Venizel was repaired during the morning, and a reconnaissance was made with a view to throwing a pontoon bridge at Soissons.

The 12th Infantry Brigade crossed at Venizel, and was assembled at Bucy Le Long by 1 p.m., but the bridge was so far damaged that artillery could only be man-handled across it. Meanwhile the construction of a bridge was commenced close to the road bridge at Venizel.

At 2 p.m. the 12th Infantry Brigade attacked in the direction of Chivres and Vregny with the object of securing the high ground east of Chivres, as a necessary preliminary to a further advance northwards. This attack made good progress, but at 5-30 p.m. the enemy's artillery and machine-gun fire from the direction of Vregny became so severe that no further advance could be made. The positions reached were held till dark.

The pontoon bridge at Venizel was completed at 5-30 p.m., when the 10th Infantry Brigade crossed the river and moved to Bucy Le Long.

The 19th Infantry Brigade moved to Billy Sur Aisne, and before dark all the artillery of the Division had crossed the river, with the exception of the Heavy Battery and one Brigade of Field Artillery.

During the night the positions gained by the 12th Infantry Brigade to the east of the stream running through Chivres were handed over to the 5th Division.

The section of the Bridging Train allotted to the Third Corps began to arrive in the neighbourhood of Soissons late in the afternoon, when an attempt to throw a heavy pontoon bridge at Soissons had to be abandoned, owing to the fire of the enemy's heavy howitzers.

In the evening the enemy retired at all points and entrenched himself on the high ground about two miles north of the river along which runs the Chemin-des-Dames. Detachments of Infantry, however strongly entrenched in commanding points down slopes of the various spurs, were left in front of all three corps with powerful artillery in support of them.

During the night of the 13th and on the 14th and following days the Field Companies were incessantly at work night and day. Eight pontoon bridges and one foot bridge were thrown across the river under generally very heavy artillery fire, which was incessantly kept

up on to most of the crossings after completion. Three of the road bridges, i.e., Venizel, Missy and Vailly, and the railway bridge east of Vailly were temporarily repaired so as to take foot traffic and the Villers Bridge made fit to carry weights up to six tons.

Preparations were also made for the repair of the Missy, Vailly and Bourg Bridges so as to take mechanical transport.

The weather was very wet and added to the difficulties by cutting up the already in-different approaches, entailing a large amount of work to repair and improve.

The operations of the Field Companies during this most trying time are worthy of the best traditions of the Royal Engineers.

4. On the evening of the 14th it was still impossible to decide whether the enemy was only making a temporary halt, covered by rear-guards, or whether he intended to stand and defend the position.

With a view to clearing up the situation, I ordered a general advance.

The action of the First Corps on this day under the direction and command of Sir Douglas Haig was of so skilful, bold and decisive a character that he gained positions which alone have enabled me to maintain my position for more than three weeks of very severe fighting on the north bank of the river.

The Corps was directed to cross the line Moulines—Monssy by 7 P.M.

On the right the General Officer Commanding the 1st Division directed the 2nd Infantry Brigade (which was in billets and bivouacked about Moulines), and the 25th Artillery Brigade (less one battery), under General Bullfin, to move forward before daybreak, in order to protect the advance of the Division sent up the valley to Vendresse. An officers' patrol sent out by this Brigade reported a considerable force of the enemy near the factory north of Troyon, and the Brigadier accordingly directed two regiments (the King's Royal Rifles and the Royal Sussex Regiment) to move at 3 A.M. The Northamptonshire Regiment was ordered to move at 4 A.M. to occupy the spur east of Troyon. The remaining regiment of the Brigade (the Loyal North Lancashire Regiment) moved at 5-30 A.M. to the village of Vendresse. The factory was found to be held in considerable strength by the enemy, and the Brigadier ordered the Loyal North Lancashire Regiment to support the King's Royal Rifles and the Sussex Regiment. Even with this support the force was unable to make headway and on the arrival of the 1st Brigade the Coldstream Guards were moved up to support the right of the leading Brigade (the 2nd), while the remainder of the 1st Brigade supported its left.

About noon the situation was, roughly, that the whole of these two brigades were extended along a line running east and west, north of the line Troyon and south of the Chemin-des-Dames. A party of the Loyal North Lancashire Regiment had seized and were holding the factory. The enemy held a line of entrenchments north and east of the factory in considerable strength, and every effort to advance against this line was driven back by heavy shell and machine-gun fire. The morning was wet and a heavy mist hung over the hills, so that the 25th Artillery Brigade and the Divisional Artillery were unable to render effective support to the advanced troops until about 9 o'clock.

By 10 o'clock the 3rd Infantry Brigade had reached a point one mile south of Vendresse, and from there it was ordered to continue the line of the 1st Brigade and to connect with and help the right of the 2nd Division. A strong hostile column was found to be advancing, and by a vigorous counter-stroke with two of his battalions the Brigadier checked the advance of this column and relieved the pressure on the 2nd Division. From this period until late in the afternoon the fighting consisted of a series of attacks and counter-attacks. The counter-strokes by the enemy were delivered at first with great vigour, but later on they decreased in strength, and all were driven off with heavy loss.

On the left the 6th Infantry Brigade had been ordered to cross the river and to pass through the line held during the preceding night by the 5th Infantry Brigade and occupy the Courtecon Ridge, whilst a detached force, consisting of the 4th Guards Brigade and the 36th Brigade, Royal Field Artillery, under Brigadier-General Perceval, were ordered to proceed to a point east of the village of Ostel.

The 6th Infantry Brigade crossed the river at Pont-Arcy, moved up the valley towards Braye, and at 9 A.M. had reached the Rue Tillcul—La Buvelle. On this line they came under heavy artillery and rifle fire, and were unable to advance until supported by the 34th Brigade, Royal Field Artillery, and the 44th Howitzer Brigade and the Heavy Artillery.

The 4th Guards Brigade crossed the river at 10 A.M. and met with very heavy opposition. It had to pass through dense woods; field artillery support was difficult to obtain; but one section of a field battery pushed up to and within the firing line. At 1 P.M. the left of the Brigade was south of the Ostel Ridge.

At this period of the action the enemy obtained a footing between the First and Second Corps, and threatened to cut the communications of the latter.

Sir Douglas Haig was very hardly pressed and had no reserve in hand. I placed the Cavalry Division at his disposal, part of which he skilfully used to prolong and secure the left flank of the Guards Brigade. Some heavy fighting ensued, which resulted in the enemy being driven back with heavy loss.

About 4 o'clock the weakening of the counter-attacks by the enemy and other indications tended to show that his resistance was decreasing, and a general advance was ordered by the Army Corps Commander. Although meeting with considerable opposition and coming under very heavy artillery and rifle fire, the position of the corps at the end of the day's operations

extended from the Chemin-des-Dames on the right, through Chivy, to Le Cour de Soupir with the 1st Cavalry Brigade extending to the Chavonne—Soissons road.

On the right the corps was in close touch with the French Moroccan troops of the 18th Corps, which were entrenched in échelon to its right rear. During the night they entrenched this position.

Throughout the Battle of the Aisne this advanced and commanding position was maintained, and I cannot speak too highly of the valuable services rendered by Sir Douglas Haig and the Army Corps under his command. Day after day and night after night the enemy's infantry has been hurled against him in violent counter-attack which has never on any one occasion succeeded, whilst the trenches all over his position have been under continuous heavy artillery fire.

The operations of the First Corps on this day resulted in the capture of several hundred prisoners, some field pieces, and machine guns.

The casualties were very severe, one brigade alone losing three of its four Colonels.

The 3rd Division commenced a further advance and had nearly reached the plateau of Aizy when they were driven back by a powerful counter-attack supported by heavy artillery. The Division, however, fell back in the best order, and finally entrenched itself about a mile north of Vailly Bridge, effectively covering the passage.

The 4th and 5th Divisions were unable to do more than maintain their ground.

5. On the morning of the 15th, after close examination of the position, it became clear to me that the enemy was making a determined stand; and this view was confirmed by reports which reached me from the French Armies fighting on my right and left, which clearly showed that a strongly entrenched line of defence was being taken up from the north of Compiègne, eastward and south-eastward, along the whole valley of the Aisne up to and beyond Reims.

A few days previously the Fortress of Mauberge fell, and a considerable quantity of siege artillery was brought down from that place to strengthen the enemy's position in front of us.

During the 15th shells fell in our position which have been judged by experts to be thrown by eight-inch siege guns with a range of 10,000 yards. Throughout the whole course of the battle our troops have suffered very heavily from this fire, although its effect latterly was largely mitigated by more efficient and thorough entrenching the necessity for which I impressed strongly upon Army Corps Commanders. In order to assist them in this work all villages within the area of our occupation were searched for heavy entrenching tools, a large number of which were collected.

In view of the peculiar formation of the ground on the north side of the river between Missy and Soissons, and its extraordinary adaptability to a force on the defensive, the 5th Division found it impossible to maintain its position on the southern edge of the Chivres Plateau, as the enemy in possession of the village of Vregny to the west was able to bring a flank fire to bear upon it. The Division had, therefore, to retire to a line the left of which was at the village of Marguerite, and thence ~~run~~ by the north edge of Missy back to the river to the east of that place.

With great skill and tenacity Sir Charles Fergusson maintained this position throughout the whole battle, although his trenches were necessarily on lower ground than that occupied by the enemy on the southern edge of the plateau, which was only 400 yards away.

General Hamilton with the 3rd Division vigorously attacked to the north and regained all the ground he had lost on the 15th, which throughout the battle has formed a most powerful and effective bridge head.

6. On the 16th the 6th Division came up into line.

It had been my intention to direct the First Corps to attack and seize the enemy's position on the Chemin-des-Dames, supporting it with this new reinforcement. I hoped from the position thus gained to bring effective fire to bear across the front of the 3rd Division which, by securing the advance of the latter, would also take the pressure off the 5th Division and the Third Corps.

But any further advance of the First Corps would have dangerously exposed my right flank. And, further, I learned from the French Commander-in-Chief that he was strongly reinforcing the 6th French Army on my left, with the intention of bringing up the Allied left to attack the enemy's flank and thus compel his retirement. I therefore sent the 6th Division to join the Third Corps with orders to keep it on the south side of the river, as it might be available in general reserve.

On the 17th, 18th and 19th the whole of our line was heavily bombarded, and the First Corps was constantly and heavily engaged. On the afternoon of the 17th the right flank of the 1st Division was seriously threatened. A counter-attack was made by the Northamptonshire Regiment in combination with the Queen's, and one battalion of the Divisional Reserve was moved up in support. The Northamptonshire Regiment, under cover of mist, crept up to within a hundred yards of the enemy's trenches and charged with the bayonet, driving them out of the trenches and up the hill. A very strong force of hostile infantry was then disclosed on the crest line. This new line was entailed by part of the Queen's and the King's Royal Rifles, which wheeled to their left on the extreme right of our infantry line, and were supported by a squadron of cavalry on their outer flank. The enemy's attack was ultimately driven back with heavy loss.

On the 18th, during the night, the Gloucestershire Regiment advanced from their position near Chivy, filled in the enemy's trenches and captured two maxim guns.

On the extreme right the Queen's were heavily attacked, but the enemy was repulsed with great loss. About midnight the attack was renewed on the First Division, supported by artillery fire, but was again repulsed.

Shortly after midnight an attack was made on the left of the 2nd Division with considerable force, which was also thrown back.

At about 1 p.m. on the 19th the 2nd Division drove back a heavy infantry attack strongly supported by artillery fire. At dusk the attack was renewed and again repulsed.

On the 18th I discussed with the General Officer Commanding the Second Army Corps and his Divisional Commanders the possibility of driving the enemy out of Condé, which lay between his two Divisions, and seizing the bridge which has remained throughout in his possession.

As, however, I found that the bridge was closely commanded from all points on the south side and that satisfactory arrangements were made to prevent any issue from it by the enemy by day or night, I decided that it was not necessary to incur the losses which an attack would entail as in view of the position of the Second and Third Corps, the enemy could make no use of Condé, and would be automatically forced out of it by any advance which might become possible for us.

On this day information reached me from General Joffre that he had found it necessary to make a new plan, and to attack and envelop the German right flank.

It was now evident to me that the battle in which we had been engaged since the 12th instant must last some days longer until the effect of this new flank movement could be felt and a way opened to drive the enemy from his positions.

It thus became essential to establish some system of regular relief in the trenches, and I have used the infantry of the 6th Division for this purpose with good results. The relieved brigades were brought back alternately south of the river, and, with the artillery of the 6th Division, formed a general reserve on which I could rely in case of necessity.

The Cavalry has rendered most efficient and ready help in the trenches, and have done all they possibly could to lighten the arduous and trying task which has of necessity fallen to the lot of the Infantry.

On the evening of the 19th and throughout the 20th the enemy again commenced to show considerable activity. On the former night a severe counter-attack on the 3rd Division was repulsed with considerable loss, and from early on Sunday morning various hostile attempts were made on the trenches of the 1st Division. During the day the enemy suffered another severe repulse in front of the 2nd Division, losing heavily in the attempt. In the course of the afternoon the enemy made desperate attempts against the trenches all along the front of the First Corps, but with similar results.

After dark the enemy again attacked the 2nd Division only to be again driven back.

Our losses on these two days were considerable, but the number, as obtained, of the enemy's killed and wounded vastly exceeded them.

As the troops of the First Army Corps were much exhausted by this continual fighting, I reinforced Sir Douglas Haig with a brigade from the reserve, and called upon the 1st Cavalry Division to assist them.

On the night of the 21st another violent counter-attack was repulsed by the 3rd Division, the enemy losing heavily.

On the 23rd the four six-inch howitzer batteries, which I had asked to be sent from home, arrived. Two batteries were handed over to the Second Corps and two to the First Corps. They were brought into action on the 24th with very good results.

Our experiences in this campaign seem to point to the employment of more heavy guns of a larger calibre in great battles which last for several days, during which time powerful entrenching work on both sides can be carried out.

These batteries were used with considerable effect on the 24th and the following days.

8. On the 23rd the action of General de Castelnau's Army on the Allied left developed considerably, and apparently withdrew considerable forces of the enemy away from the centre and east. I am not aware whether it was due to this cause or not, but until the 26th it appeared as though the enemy's opposition in our front was weakening. On that day, however, a very marked renewal of activity commenced. A constant and vigorous artillery bombardment was maintained all day, and the Germans in front of the 1st Division were observed to be "sapping" up to our lines and trying to establish new trenches. Renewed counter-attacks were delivered and beaten off during the course of the day, and in the afternoon a well-timed attack by the 1st Division stopped the enemy's entrenching work.

During the night of 27th-28th the enemy again made the most determined attempts to capture the trenches of the 1st Division, but without the slightest success.

Similar attacks were reported during these three days all along the line of the Allied front, and it is certain that the enemy then made one last great effort to establish ascendancy. He was, however, unsuccessful everywhere, and is reported to have suffered heavy losses. The same futile attempts were made all along our front up to the evening of the 28th, when they died away, and have not since been renewed.

On former occasions I have brought to your Lordship's notice the valuable services performed during this campaign by the Royal Artillery.

Throughout the Battle of the Aisne they have displayed the same skill, endurance and tenacity, and I deeply appreciate the work they have done.

Sir David Henderson and the Royal Flying Corps under his command have again proved their incalculable value. Great strides have been made in the development of the use of aircraft in the tactical sphere by establishing effective communication between aircraft and units in action.

It is difficult to describe adequately and accurately the great strain to which officers and men were subjected almost every hour of the day and night throughout this battle.

I have described above the severe character of the artillery fire which was directed from morning till night, not only upon the trenches, but over the whole surface of the ground occupied by our Forces. It was not until a few days before the position was evacuated that the heavy guns were removed and the fire slackened. Attack and counter-attack occurred at all hours of the night and day throughout the whole position, demanding extreme vigilance, the permitting only a minimum of rest.

The fact that between the 12th September to the date of this despatch the total numbers of killed, wounded and missing reached the figures amounting to 561 officers, 12,980 men, proves the severity of the struggle.

The tax on the endurance of the troops was further increased by the heavy rain and cold which prevailed for some ten and twelve days of this trying time.

The Battle of the Aisne has once more demonstrated the splendid spirit, gallantry, and devotion which animates the officers and men of His Majesty's Forces.

With reference to the last paragraph of my despatch of September 7th, I append the names of officers, non-commissioned officers and men brought forward for special mention by Army Corps commanders and heads of departments for services rendered from the commencement of the campaign up to the present date.

I entirely agree with these recommendations and beg to submit them for your Lordship's consideration.

I further wish to bring forward the names of the following officers who have rendered valuable service:—General Sir Horace Smith-Dorrien and Lieutenant-General Sir Douglas Haig (Commanding First and Second Corps respectively). I have already mentioned in the present and former despatches for particularly marked and distinguished service in critical situations.

Since the commencement of the campaign they have carried out all my orders and instructions with the utmost ability.

Lieutenant-General W. P. Pulteney took over the command of the Third Corps just before the commencement of the Battle of the Marne. Throughout the subsequent operations he showed himself to be a most capable commander in the field and has rendered very valuable services.

Major-General E. H. H. Allenby and Major-General H. de la P. Gough have proved themselves to be Cavalry leaders of a high order, and I am deeply indebted to them. The undoubted moral superiority which our Cavalry has obtained over that of the enemy has been due to the skill with which they have turned to the best account the qualities inherent in the splendid troops they command.

In my despatch of 7th September I mentioned the name of Brigadier-General Sir David Henderson and his valuable work in command of the Royal Flying Corps; and I have once more to express my deep appreciation of the help he has since rendered me.

Lieutenant-General Sir Archibald Murray has continued to render me invaluable help as Chief of the Staff; and in his arduous and responsible duties he has been ably assisted by Major-General Henry Wilson, Sub-Chief.

Lieutenant-General Sir Nevil Macready and Lieutenant-General Sir William Robertson have continued to perform excellent service as Adjutant-General and Quartermaster-General respectively.

The Director of Army Signals, Lieutenant-Colonel J. S. Fowler, has materially assisted the operations by the skill and energy which he has displayed in the working of the important department over which he presides.

My Military Secretary, Brigadier-General the Hon. W. Lambton, has performed his arduous and difficult duties with much zeal and great efficiency.

I am anxious also to bring to your Lordship's notice the following names of officers of my Personal Staff, who throughout these arduous operations have shown untiring zeal and energy in the performance of their duties:—

Aides-de-Camp.

Lieutenant-Colonel Stanley Barry.

Lieutenant-Colonel Lord Brooke.

Major Fitzgerald Watt.

Extra Aide-de-Camp.

Captain the Hon. F. E. Guest.

Private Secretary.

Lieutenant-Colonel Brindsley Fitzgerald.

Major His Royal Highness Prince Arthur of Connaught, K.G., joined my Staff as Aide-de-Camp on the 14th September.

His Royal Highness's intimate knowledge of languages enabled me to employ him with great advantage on confidential missions of some importance, and his services have proved of considerable value.

I cannot close this despatch without informing your Lordship of the valuable services rendered by the Chief of the French Military Mission at my Headquarters, Colonel Victor Huguet, of the French Artillery. He has displayed tact and judgment of a high order in many difficult situations, and has rendered conspicuous service to the Allied cause.

I have the honour to be,
Your Lordship's most obedient Servant,

(Signed) J. D. P. FRENCH, Field-Marshal,
Commanding-in-Chief,
The British Army in the Field.

8. If at any time or times hereafter the said Sir Sassoon Jacob David or any other person or persons shall be desirous of augmenting the funds and securities for the time being subject to the trusts of this Act and for that purpose and with that intent shall, at his or her own expense, transfer and deliver to the Corporation any stocks, funds or securities of the nature authorized by section 3 then and as often as the same shall happen the said Corporation shall accept such stocks, funds and securities, and the same shall thenceforth be held by the Corporation upon the same trusts and for the same purposes as are declared by this Act with regard to the Trust Funds referred to in section 3 or upon such of them as shall then be subsisting and capable of taking effect PROVIDED ALWAYS that the total amount of the promissory notes, bonds, stocks, funds, and securities for the time being subject to the trusts of this Act shall at no time exceed Rupees ninety lacs.

9. It shall be lawful for the Corporation out of the money which shall come to their hands by virtue of the trust and provisions of this Act to retain and reimburse themselves all costs, damages and expenses which they shall or may sustain, expend or disburse in or about the execution of the aforesaid powers, trusts and provisions or in relation thereto.

G.M.S.I., G.M.I.E., I.S.O., Viceroy and Governor General, *presiding*,

DEATH OF THE HON'BLE MR. GOPAL KRISHNA GOKHALE, C.I.E.

His Excellency the President:—"It was with deep regret that on the morning of the 20th I received the sad news of the premature death during the previous night of the Hon'ble Mr. Gokhale, Member of this Council. I had heard that he had been compelled by indisposition to delay his arrival in Delhi, his intention having been to come in time for the meeting of Council today, and it was a great shock to me, as it must have been to us all, to learn that he had quietly passed away.

"The Hon'ble Mr. Gopal Krishna Gokhale was born at Kolhapur in the year 1866. I need not go into the details of his earlier life beyond mentioning that Mr. Gokhale took his degree as Bachelor of Arts in 1884, in the University of Bombay, of which university he subsequently became a fellow. Almost immediately afterwards he began to devote himself to the cause of education. For 20 years he served as a lecturer at the Fergusson College, Poona, specialising particularly in History and Economics, a subject into which he threw himself with so much fervour and zeal that he became an acknowledged authority; and at the same time giving much of his time to establishing the college on a sound financial basis. During this period of his life, he began to take a prominent part in public life and was for four years Secretary to the Provincial Congress of Bombay; in 1895 he was one of the Joint Secretaries of the Indian National Congress and continued for many years to labour in that capacity. In 1897 he went to England as one of the witnesses before the Royal Commission on Indian expenditure and gave evidence which was of great importance and value. In 1900 he was elected a Member of the Bombay Legislative Council and in 1902 he was elected as a representative of the Bombay Council on the Imperial Legislative Council. This office he continued to hold until the date of his death.

"In 1904 he was made a Companion of the Most Eminent Order of the Indian Empire. In 1905 he was President of the Indian National Congress and in the same year founded the Ranade Economic Institute and the Society of the Servants of India. Later on he paid several visits to England and toiled ceaselessly for the various causes he had so much at heart, and I have always understood that he took a quiet but active part in the conversations that led up to the reform of this and other Indian Councils. Finally in 1912 he was appointed a member of the Royal Commission on Public Services in India.

"Such are some of the very distinguished services of the Hon'ble Mr. Gokhale but not all, for in Council he was well-known as a speaker of conspicuous ability and wonderful eloquence, while his earnest enthusiasm and sound judgment secured for him a commanding position among the public men of this country. He was a loyal supporter of British rule in India, but nevertheless was also on many occasions a fearless critic of the administrative methods and policy of Government and never hesitated to draw attention to any measure or action which, in his opinion, was improper or open to censure. In regard to financial and educational questions in particular his attacks were frequently most forcible and incisive, so much so indeed that the abilities of his opponents were frequently taxed to the utmost to meet his arguments. Though, however, a severe critic of those who opposed him, he was always dignified and courteous in debate, and even when unsuccessful in securing his object impressed all who heard him not only with his skill, but with his intense earnestness and desire to do what was in his opinion right. He took a prominent part in all debates of importance during his period of office in Council, especially in those relating to financial, educational and administrative questions.

"During my period of office the most important measure in which Mr. Gokhale was interested was the Bill to make better provision for the extension of primary education. Though he failed in inducing the Council to accept the Bill, all those who heard him will remember the extraordinary force and ability with which he pressed his views.

"It is also right that on this occasion I should refer to the important part taken by Mr. Gokhale in emigration questions and in particular that relating to Indian immigration into South Africa. In this question, as in all other political questions, Mr. Gokhale strove ceaselessly for the amelioration of the condition of Indians and for the promotion of their welfare, and in my opinion it was largely due to him and his tactful and statesmanlike attitude during his visit to South Africa that this thorny question eventually received a satisfactory solution.

"In my personal relations with Mr. Gokhale I have always regarded him not merely as an important Member of my Council but also as a friend. On more than one occasion he has given me advice which I found to be both

sound and useful, and I may mention that in the South African Immigration question he rendered me most loyal and helpful assistance. It was only six months ago that I recommended to His Majesty the King Emperor the appointment of Mr. Gokhale as Knight Commander of the Indian Empire as a mark of recognition of his valuable services, but Mr. Gokhale, with that simplicity of nature which characterised him, gratefully acknowledged the intention, but asked to remain as he was.

"He has now left us and we shall feel the void he has created, for one may truly say that it will be almost impossible to fill his place in Indian public life. I understand that the Hon'ble Sir Gangadhar Chitnavis desires to say a few words on behalf of non-official Members of my Council and after that I propose to adjourn Council till tomorrow as a mark of sorrowful respect towards our late friend and Member, the Hon'ble Mr. Gokhale. May he rest in peace."

The Hon'ble Sir Gangadhar Chitnavis :—"My Lord, the occasion is painful. As the spokesman on behalf of the Hon'ble Members of this Council I must express our profound sorrow at the death of Mr. Gokhale. Every word that has fallen from Your Excellency strikes a sympathetic chord in our hearts ; indeed, it is difficult to convey in suitable language the depth of our feeling on this sad occasion.

"My Lord, to me personally, as to many others on this Council, the loss is very great and very painful. Mr. Gokhale was a friend with whom my relations were always cordial and intimate, and the friendship formed in our youth was cemented and strengthened by years of close association in public work both on this Council and outside. His death has on this account been a great blow to me.

"But the removal by death from the scene of his activities of a man like Mr. Gokhale is far more than a personal loss to his friends. It will be difficult to fill up the void created by it in Indian public life. The "Pioneer" has well said that the death of such a man is a national misfortune. Mr. Gokhale combined under an unassuming exterior so many rare qualities of head and heart. It was remarked sometime ago that Mr. Gokhale was sacrificing his life on the altar of the Motherland. This description is absolutely true, not only with reference to any particular period of his life, but also to the whole of his life. There was hardly a moment when he was not doing something or other with the sole object of helping in the amelioration of the Indian people. And he always applied himself to his work with characteristic zeal, earnestness and tenacity. If he had been less hardworking in the public cause and more careful of his health, he would, I am sure, have been spared long to cheer us with his genial presence. His splendid talent and unsparing industry were alike applied to the service of his country, the country he loved most and the political advancement of which he so capably advocated. When the future history of a progressive India comes to be written Mr. Gokhale will stand out in bold relief as a strong advocate of political measures to which a good deal of that progress is due. Mr. Gokhale's deep study of public affairs made his services invaluable, and his tactful handling of them saved many a difficult situation. His participation in the settlement of the South African Indian question has been acknowledged by all to have been productive of solid results with Your Excellency's whole-hearted and sympathetic support ; and his later services in the cause of Indian education shed lustre on a life begun as a philanthropic and self-sacrificing worker in that cause. My Lord, if Mr. Gokhale is remembered for his varied and unwearied public activity, his work in this Council will form a brilliant page in its history. Those among the non-official members who had the privilege to be his colleagues here cannot fail to miss him very much, especially for the acumen he always displayed in the discussion of the various subjects and his splendid powers of debate. But, my Lord, his brilliant example will be with us to inspire us in our humble work. Mr. Gokhale had quite a passionate fondness for Council work, and even in the last days of his serious illness he was anxious to join us here. Indeed, he

was only prevented from making the attempt by his medical advisers. We owe it to our departed and worthy friend to pay this humble tribute to his memory.

"I will here, with Your Excellency's kind permission, read a telegram which has been received from Mr. Vijiaraghavachariar associating himself with this resolution of sympathy.

Telegram from the Hon'ble Mr. C. VIJIRAGHAVACHARIAR, Salem, to the Hon'ble Sir WILLIAM VINCENT, Delhi, dated 22nd February, 1915.

'Honourable Mr. Gokhale's sad untimely death has naturally caused deep universal sorrow. Loss to both Council and country, great, irreparable. Desiring to associate myself with resolution of sympathy in Council tomorrow.'

"I have also received a telegram of sympathy from the Hon'ble Sir Guy Fleetwood Wilson, our late Finance Member, in connection with Mr. Gokhale's death."

Season and Crop Prospects for the week ending Saturday, 20th February 1915.

Burma.—No rain fell during the week. Threshing and winnowing of winter rice has been completed. Cultivation of spring rice and of miscellaneous crops is proceeding satisfactorily. The condition of standing crops is good. Cattle are healthy. The price of unhusked rice has fallen further and is much below normal. There is no demand for white rice.

Assam.—The weather was seasonable. Harvesting of mustard and pressing of sugarcane continue. Hoeing and pruning of tea and ploughing of land for paddy and jute are in progress. Sowing of autumn rice has commenced in places. The price of common rice has further risen slightly. Cattle disease is reported from three districts. Fodder and water are insufficient in parts of Cachar.

Bengal.—Light to moderate showers fell in a number of places, facilitating agricultural operations and doing good to the standing crops. The mango blossoms at Malda are however reported to have been slightly injured by the rainfall. Preparation of lands for jute and for other autumn crops is going on briskly. Threshing of winter paddy, harvesting of spring crops and pressing of sugarcane continue. Prospects of standing crops continue to be fairly satisfactory. Cattle disease is reported from five districts. The average price of common rice has fallen by about 5·9 per cent. as compared with that of the previous week.

Bihar and Orissa.—Light to moderate rain was general in Bihar and Chota Nagpur. There was no rain in Orissa. The rainfall has facilitated the ploughing of lands but has been somewhat injurious to the spring crops ready for harvest. Pressing of sugarcane and harvesting of the early spring crops continue. Standing crops are, on the whole, doing fairly well. The price of common rice has risen as compared with that of the previous week. The supply of fodder and water is sufficient. Cattle disease is reported from twelve districts. The condition of standing crops in the Feudatory States of Orissa is good.

United Provinces.—Showers were received in parts of the south and east of the Provinces. Hail and rain have slightly damaged crops in Benares and wheat has been attacked by rust in Saharanpur. Standing crops are doing well and prospects are favourable. Pressing of sugarcane, sowing of cane, *sawon*, tobacco and extra crops, irrigation and harvesting of spring crops, weeding of poppy, extraction of opium, threshing of peas, reaping of mustard and barley and preparation of lands for the autumn and for the next cane crops continue. The condition of agricultural stock is good but cattle disease is reported from thirteen districts. Fodder and water are sufficient. Stocks are still low in Mainpuri and Hardoi. Prices show a tendency to rise still further.

Punjab.—The weather was dry except in a few submontane and the western districts where light to moderate rain was received. It was beneficial to crops but more rain is still wanted in the western parts of the Province. Pressing of sugarcane continues and the outturn is average. The condition and prospects of wheat and other spring crops are good. Ploughing for and sowing of the extra spring crops are in progress and are normal. Cattle are generally healthy and fodder and water are sufficient. Prices of food grains are high.

North-West Frontier Province.—The week was rainless. The weather is cloudy at Bannu but clear elsewhere. Rain is badly wanted in Dera Ismail Khan. Standing crops are good on irrigated but average on unirrigated lands. The Paharpur Canal has been stopped. Harvesting of sugarcane is still proceeding with good outturn. Sowing of extra spring crops is in progress. The condition of cattle is generally good. Fodder and water are procurable. Prices are high but stationary.

Jammu.—Slight rain fell during the week. Prices are fluctuating. Wheat sells from 7 to 12 and maize from 10 to 22 seers per rupee. The condition of standing crops is good. There is no cattle disease. Fodder is sufficient.

Kashmir.—Heavy rain fell in Muzaffarabad and heavy snow in the Valley. Cattle disease has disappeared from Uttarmachipura and Sripartabsinghpura. Prices are rising in Baramula and are normal elsewhere. Water and fodder are sufficient.

Rajputana.—The weather was cool and clear except occasional clouds in Marwar. Irrigation and weeding continue. Standing crops have been slightly damaged in places in Kotah and Tonk by hailstorms. Elsewhere they are in good condition. Fodder and water are sufficient. Cattle disease is reported in places in Dungarpur and Mewar. Prices are generally high and are rising.

Central India.—The rainfall was general in Gwalior, partial in Baghelkhand, slight in the Southern States and *nil* elsewhere. The weather is cool. Harvesting of spring crop has commenced in Malwa and in the Southern States, has been completed in Baghelkhand and Bundelkhand and is in progress elsewhere. Standing crops are generally in good condition and their outturn is expected to be good. Crops have been damaged in the Garrauli State of Bundelkhand by want of rain. Cattle disease prevails in some villages of the Kantaphor and Kamod parganas of Indore, in the Nagod State of Baghelkhand and in parts of Dhar. The condition of cattle is generally good. The fodder supply is sufficient throughout. Prices are generally high. They are rising in Malwa and are stationary elsewhere.

Central Provinces.—The weather continues to be clear and occasionally cloudy. The days are warm but the nights and mornings are still cool. Reaping of crops is in full swing throughout the Provinces. Prospects are generally fair to good. The supply of fodder and water is adequate. Agricultural stock is in good condition. Prices generally indicate a tendency to fall. The price of wheat fell by $\frac{1}{4}$ to 2 seers per rupee in ten districts and that of gram by 3 seers in Chhindwara and Buldana.

Feudatory States.—Harvesting of spring crops continues and prospects are generally good. Kodon in Kawardha and wheat in Raipur rose by $2\frac{1}{4}$ and 2 seers per rupee respectively.

Bombay.—Standing crops are generally in good condition except for slight damage by frost in two talukas of Sukkar and one taluka of Cutch, by frost and disease in four talukas of Larkana, by frost and winds in the Upper Sind Frontier, by frost and insects in three talukas of Nawabshah, and by insects in two talukas of Hyderabad. Two other talukas of Hyderabad report slight damage to standing crops for want of moisture. Cotton picking is progressing in Hyderabad, Thar and Parkar, Nawabshah, Gujarat, the Karnatak, Kathiawar, Baroda, Cutch, Rewa Kantha and Kolhapur. Harvesting of spring crops continues except in the Konkan. The fodder supply is sufficient except in the areas affected by floods and in the hilly tracts of Karachi, two talukas of Thar and Parkar and one taluka of Nawabshah. Cattle are in good condition. Agricultural stock is sufficient except in Ahmednagar and Poona. Drinking water is adequate. Water for irrigation is generally sufficient. Prices have slightly risen in the Konkan, have fallen in the Deccan and are generally steady elsewhere.

Hyderabad.—No rain fell during the week. Spring crops are being harvested and are generally fair but have been damaged by rats in parts of the Aurangabad district and by insects in parts of the Medak taluka. Late rice is being sown and sowed. Germination is satisfactory. Prices: Wheat $5\frac{1}{4}$, coarse rice $7\frac{1}{4}$ and *juar* $14\frac{1}{4}$ seers per rupee. The highest price in districts is *juar* 11 seers in Raichur and the lowest $2\frac{1}{4}$ seers in Adilabad.

Mysore.—Rainfall *nil*. The price of rice has risen in Kolar. Markets are well supplied. The outturn of the harvested *ragi* is good and that of sugarcane, paddy, gram, coffee, wheat and cotton is fair. Ploughing operations are in progress. Standing crops are in good condition. Prospects of the season are generally good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Threshing of rice continues. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—Rainfall *nil*. Standing crops are fair to good but require rain in parts of two districts. They are withering or have withered in part of three districts. Harvesting of paddy, sugarcane and dry crops is proceeding generally with outturn fair to normal. Some

NOTICE.

License to extract and purchase timber from the North and Middle Andaman Islands.

1. Notice is hereby given that the Government of India are prepared to consider tenders for a license to extract and purchase palauk and other timbers from—

(i) The North Andaman with Interview, Bennett, and all other islands North of Austin Strait.

(ii) The Middle Andaman excepting that portion to the west of Yoljig and South of the main line cleared from the junction of the Chara-lung-ta and Bom-lung-ta streams westwards to Mount Oldham and on to the sea.

2. Sites for depots, sawmills, residences, and other purposes essential to the carrying out of the terms of the license will be made available at Pott Cornwallis, Stewart Sound, and Long Island at the discretion of the Chief Commissioner of the Andaman and Nicobar Islands.

3. Tenders may be submitted for either or both of the above areas. The license will be for 20 years from the 1st January 1916, or such later date within six months of the acceptance of the tender as may be agreed upon, with the option of renewal for another 20 years on terms to be notified by the Government of India hereafter; but those persons whose tenders have been accepted will be permitted to clear land for buildings, and other purposes connected with the license, and to start the erection of such buildings, as from the date on which the agreement is signed and the security money deposited.

4. The fellings will be regulated by the working plans sanctioned, or to be sanctioned, by the Government of India. The two areas mentioned in paragraph 1 above will each be divided into three sub-periodic blocks. Felling and extraction of timber and the payment of royalty thereon must be completed in sub-periodic block I by the end of the first seven years of the license, work being similarly completed in sub-periodic blocks II and III by the end of the 11th and 15th years, respectively. Throughout the period of the agreement the Secretary of State for India in Council will retain the right to extract from the licensed areas timber required for local (other than trade) purposes and for local public works, and in any sub-periodic block on the expiry of the period allotted for the working thereof to issue licenses or otherwise provide for the felling, extraction, and disposal of timber which the licensees have omitted or are not bound to extract.

5. The palauk trees to be felled will be marked previously by the Forest Department, and none but marked trees shall be felled. The first sub-periodic block in each area will be located in the neighbourhood of Stewart Sound.

6. The minimum annual outturn of palauk timber for the first fourteen years after which the present working-plan will be revised, is estimated as follows, but the accuracy of the estimate is not guaranteed :—

(i) From the North Andaman including Interview and Bennett Islands—

1,200 sound trees of and over 9 feet in girth,

1,000 exploitable unsound trees,

which may be expected to yield—

2,100 tons of first class logs

1,400 tons of second class logs.

2,000 tons of third class logs

(ii) From the Middle Andaman—

2,400 sound trees of and over 9 feet in girth,

2,000 exploitable unsound trees,

which may be expected to yield—

4,200 tons of first class logs.

2,800 tons of second class logs.

4,000 tons of third class logs.

The outturn for the last six years of the license will be determined by working plans to be drawn up hereafter.

7. In addition the licensees will be permitted to cut, subject to previous marking, should this in the opinion of the Forest Officer be considered desirable, and to such limits as to area

and number as may be imposed by the Chief Commissioner of the Andaman and Nicobar Islands from time to time, other species as follows :—

Gurjan over 8 feet in girth, *diu* and *pyima* over 7½ feet in girth, and *koko*, black *chulgam*, white *chulgam*, white *bamboe*, red *bamboe*, and *taungpein* over 6 feet in girth.

8. The timber will, in all cases, be measured in the round log either at the stump or at collecting depots as may be found convenient by the Forest Department. All felled timber will be held to be at the risk of the licensees and to be liable to the payment of royalty which must be paid before removal from the islands or conversion in a sawmill.

9. For the first three years of the license royalty will be payable at the rates agreed on and on the amount of timber felled : but thereafter minima annual royalties will be payable as follows :—

(i) For the North Andaman, Rs. 1,00,000 per annum.

(ii) For the Middle Andaman, Rs. 1,00,000 per annum.

(iii) In case of a combined license for both islands Rs. 2,00,000 per annum.

10. Except with the special permission of the Divisional Forest Officer all padauk trees, sound or unsound, which have been marked by the forest officers as in their opinion worth conversion, must be felled and royalty paid on them.

11. Should the licensees desire to exploit any form of minor produce or any timber other than those species mentioned above they may be permitted to do so on terms to be settled hereafter by the Chief Commissioner of the Andaman and Nicobar Islands.

12. The licensees will be subject to such restrictions as the Government of India may prescribe to prevent communication between their employes and the convict population in the Andamans.

13. Subject to the general control of the Chief Commissioner of the Andaman and Nicobar Islands the cultivation of field crops solely for the support of the labour force will be permitted free of taxation.

14. Facilities will be provided at Stewart Sound for wireless telegraphy, and as far as may be possible for a weekly steamer or launch connection for postal purposes between this place and Port Blair.

15. Such padauk timber as may be available from departmental working in the areas not included in the first paragraph of this notice, or in sub-periodic blocks in which felling and extraction of timber has been completed by the licensees in accordance with the provisions of paragraph 4 above and as may not be required for local consumption in the islands or for issue to State-worked Railways or other Government departments in India and Burma, will be sold either by public auction or by public tender, provided that the quantity to be so sold annually, commencing from the first of January 1917, shall not exceed 500 tons of squares and 1,000 tons of scantlings. There will be no limit to the quantity of timber other than padauk which may be extracted from the areas under reference, and no restriction as to its disposal.

16. The Inspector-General of Forests, Simla, will answer calls for further information.

17. Tenders must be submitted on forms to be obtained from the Secretary to the Government of India in the Department of Revenue and Agriculture, and must be accompanied by a receipt for the payment into any Government Treasury of a sum of Rs. 1,500 in cash or in Government securities. This deposit will be returned to unsuccessful tenderers, but in the case of persons whose tenders have been accepted will be subject to forfeiture in the event of their failure to execute, within the time specified, the agreement referred to below.

18. All persons whose tenders have been accepted will be required to execute an agreement in a form approved by the Government of India, copies of which can be obtained on application to the Secretary to the Government of India in the Department of Revenue and Agriculture, Simla. This agreement must be signed within three months of the acceptance of the tender.

19. Tenders, marked "Tende for Andamans Timber License," should be submitted so as to reach the Secretary to the Government of India in the Department of Revenue and Agriculture, Simla, on or before the 1st September 1915. The Government of India do not undertake to accept the highest or any tender either for padauk or for other timbers, or to assign any reasons for the refusal or acceptance of any tender.

20. Without the written sanction of the Government of India no transfer, assignment or sub-letting of their license by the licensees will be valid.

KING'S POLICE MEDAL.

NOTIFICATION.

(POLICE.)

Delhi, the 1st January 1916.

No. 1-C.—His Majesty the KING, EMPEROR OF INDIA, has been pleased to confer the King's Police Medal on the following officers and men of the Indian Police establishments:—

MADRAS.

Name of officer and rank.	Statement of services for which in particular the decoration has been conferred.
1. Richard Howard Hitchcock, Superintendent of Police.	A serious outbreak of crime began in the South Malabar District in December 1914, and culminated in a fanatical outbreak on the part of a gang of Mappillas. Mr. Hitchcock made careful and continuous enquiries, established signalling parties to disseminate information, and kept close watch on dangerous and suspected criminals. When the final outburst came he had his forces ready to meet it, and by his promptness and resource put a speedy end to it. Mr. Innes, the Collector of the District, was ambushed on the 27th February between Pandikad and Karuvarakundu; Mr. Hitchcock was on the spot at once, searched for the gang of fanatics, obtained information of their movements the next day, encircled them with his forces on the 1st March, planned the attack on the temple in which they had taken up their stand, and stormed it, killing three of the fanatics and wounding two. His measures stopped the outbreak and prevented any dangerous developments of the situation. This is believed to be the first outbreak of this nature which has been quelled by the police unaided by the military.
2. Leslie Withinshaw, Officiating Superintendent of Police.	During the Mohurrum of 1914 at Gudur in the Kurnool District, trouble being anticipated between the Muhammadans and the Katris, owing to long-standing enmity, Mr. Withinshaw was on the spot during the dangerous days of the festival. On the 30th November three Muhammadans approached him saying that the Katris were going to do <i>pūja</i> in their temple and there might be trouble. Mr. Withinshaw went to the spot, and finding some 70 Muhammadans round the temple, tried to induce them to disperse. They refused and when the bell in the Katri temple rang, began an attack upon the temple and endeavoured to beat the Katris in it. Mr. Withinshaw interposed himself between the parties, and while pulling two Muhammadans out of the temple, was assaulted from behind, receiving injuries on his head and shoulder. He seized a <i>lathi</i> from a Muhammadan and drove away the rioters to the end of the street. There they stopped and were re-inforced and began to hurl large stones and make rushes at Mr. Withinshaw, but recoiled on coming within striking distance of his <i>lathi</i> . Mr. Withinshaw thus kept the mob at bay till the arrival of a party of the Reserve which, after firing on the mob and wounding several of its members, forced it to disperse. That there was not serious injury to life and property was due entirely to Mr. Withinshaw interposing himself and keeping the mob at bay, despite the injuries he had received, until assistance arrived.

MADRAS—*contd.*

Name of officer and rank.	Statement of services for which in particular the decoration has been conferred.
3. Lakshmana Rao, probationary sub-inspector of police.	During the riot at Gundur in the Kurnool District in 1914, when the Superintendent of Police was facing an infuriated mob alone, this sub-inspector, then a head constable, went to the assistance of his superior officer and supported him in keeping the mob at bay until the arrival of reinforcements. Despite showers of stones and the rushes of the mob the sub-inspector refused to take shelter until specifically ordered to do so by his Superintendent and though severely injured displayed great bravery.
4. Ellati Valiagatti Amu, sub-inspector of police.	During the recent fanatical outbreak amongst the Mappillas of the South Malabar District, sub-inspector Amu, himself a Mappilla, rendered valuable assistance to his Superintendent and displayed great bravery. He was the first person to obtain definite information of the movements of the gang of fanatics; he followed them up and actually got into conversation with them, and discovered the place where they intended making their stand. With the aid of a small party of constables he watched their stronghold during the night of the 28th February till reinforcements arrived the next day. He then approached the temple in which they had barricaded themselves and endeavoured to persuade the fanatics to surrender. He warned them that they would be shot, but the men who had taken possession of the upper room of the temple gate-house replied defiantly and invited Amu to send for his force. Amu then posted guards and sent an urgent message to the Superintendent of Police, who was in search of the fanatics. Amu was present throughout the action which resulted in the destruction of the fanatics. It was largely owing to the courage and presence of mind of the sub-inspector that the law-breakers were so quickly traced and the outbreak ended.
5. John Moore, Superintendent of Police.	On the outbreak of the war there was a movement among certain Christian "Gurus" and leading Naiks of the Koraput Agency to oust the British, the belief obtaining that Germany would win the war and that there was no need to obey the British Government any longer. Mr. Moore had early information of the movement and kept the Agent to the Governor fully informed about it. The first overt sign came with an attack on two constables and this was followed by an assault on a sub-inspector; but the effective steps taken by Mr. Moore to meet the outbreak and the promptitude with which he brought the state of affairs to notice prevented the affair from assuming serious proportions.
6. Jack Elliott, Assistant Superintendent of Police.	Mr. Elliott did excellent work during the recent Mappilla outbreak in the South Malabar District. On hearing of the outbreak he at once proceeded to the disturbed area alone. With a party of special police he took part in the search for the fanatics on the 27th and 28th February in the neighbourhood of Karuvarakundu, and on the 1st March, having received news of the movements of the gang, he marched to Alanallur where the gang was located and surrounded. On the morning of the 2nd March, Mr. Elliott moved out with a party of picked shots before daylight and in the rain took up a well-chosen position under cover on the north side of the temple in which the fanatics had decided to make their stand. Thence the fire of the party was brought to bear on the temple, and two of the gang who ventured outside the temple were killed by it. Mr. Elliott worked with great energy and the speedy termination of the outbreak was due in some part to his getting the men of the special police under him speedily to the scene of action.

7. **Tharmapuram Venkatarama Ayyar Krishnaswami Ayyar**, inspector of police. This inspector has a record of consistently meritorious work and has shown marked ability in the conduct of special investigations and in the control of difficult police circles, in which he has exhibited high qualities of tact in dealing with the people.
8. **Abhiramapuram K. Rajah Ayyar, B.A.**, Deputy Superintendent of Police. In the Cuddapah District a gang of persons who were associated together for the purpose of committing murder for mercenary considerations sprang into existence about 11 years ago and came prominently to notice in 1909. Their services were utilized in faction fights and at first they enjoyed immunity as there were no grounds for suspecting them and the factions implicated members of hostile factions. As they grew bolder they raised the price of their services which varied according to the rank and position of the victim. Their crimes were carefully organized and skilfully carried out so that detection was most difficult. In the absence of evidence sufficient to secure convictions under the Penal Code, it was necessary to institute proceedings against the gang under the Criminal Procedure Code, and Deputy Superintendent M. R. Ry. A. K. Rajah Ayyar worked up and brought to a successful issue the security cases against the leaders and also rendered great assistance in the preparation of the case against them under the Criminal Tribes Act. Although his life was in danger he did his duty unflinchingly, and was largely instrumental in ridding the Cuddapah Districts of this menace to the lives and security of their inhabitants.
9. **Govindan Nayar**, head constable. Head constable Govindan Nayar joined the department in 1885 and is now the senior head constable in the Mullaputur Special Force. He has taken part in the suppression of six Mappilla outbreaks, and has received the thanks of Government in connection with three of them. During the outbreak of the present year he was in charge of the signallers and rendered valuable services both prior to the actual outbreak and during its continuance. During his long and valuable service in the police Govindan Nayar has maintained an unblemished record of good conduct.
10. **Edmond Harvey Sullivan**, Officiating Superintendent of Police. On receipt of news of the rebellion in the Daspalla State within the jurisdiction of the Government of Bihar and Orissa, Mr. Sullivan marched the Chatrapur Reserve from Berhampur to Daspalla. Great difficulties were encountered as regards transport and finally Mr. Sullivan decided to proceed, each man carrying his own supplies and ammunition. Though the capital of Daspalla was reached only after the outbreak had been crushed by other forces, the Chatrapur police deserved great credit for the promptness of the assistance rendered by them, which was largely due to Mr. Sullivan's initiative and energy. Subsequently, owing to his admirable arrangements, two of the leading rebels who absconded to British territory were arrested by the Ganjam Police. Mr. Sullivan has received the thanks of the Government of Bihar and Orissa for the services rendered by him in connection with this outbreak.

BOMBAY.

11. **Wilfrid Henry Luck**, Deputy Inspector-General of Police for Sind. Mr. Luck is a very sound and capable officer with 28 years' service who did exceptionally good work in suppressing serious and widespread crime and disorder by the Bhils in Khandesh and in effecting the capture on the 31st July 1901 of the notorious Rumalya and some of his followers. His work in Kathiawar also, where he kept the Agency Police Force in a high state of efficiency, was exceptionally good and his personal services were invaluable.

12. F. C. Griffith, Deputy Commissioner of Police.	As Deputy Commissioner in charge of the Criminal Investigation Department in Bombay the bulk of the work in connection with enemy subjects and of the enquiries necessitated by war conditions has fallen on Mr. Griffith's shoulders, and the fact that the orders of Government have been carried out without a hitch is largely due to his care and control. At the same time he has in no way relaxed his personal supervision over the ordinary business of the Criminal Investigation Department and has kept the regular work of the Department running, while at the same time dealing with a mass of special work in novel circumstances and conditions.
13. Simon Favel, inspector of police.	Inspector Favel joined the Bombay City Police Force in 1894, and is now senior inspector of the Criminal Investigation Department in charge of the Foreign Branch. He has had no bad entry or punishment throughout his service, and has earned 17 special entries for good work. Since the outbreak of the war in August 1914 he has done hard and capable work in dealing with enemy subjects, meeting and boarding every ship that has entered the port, and carrying out all the detailed work in connection with the internment, surveillance, maintenance, etc., of foreign subjects for which he is specially fitted by his complete knowledge of the foreign European population. His services since the outbreak of war have been invaluable.
14. Abdul Wahab <i>walad</i> Shaik Fajee, head constable, G. I. P. Railway Police.	During a period of 19 years' service in which he has risen from constable to first grade head constable this officer has obtained no less than 106 certificates and rewards in connection with the detection of crime. In the majority of the above cases he had worked entirely on his own initiative although he is illiterate. With the exception of one warning of an insignificant nature this officer's record is without a punishment, censure or adverse remark.
15. Khán Sáheb Muhammad Faizullah, Muhammad Taki, inspector of police.	This officer holds the personal title of "Khán Sáheb" and the Medal of the Royal Victorian Order. Since the grant of the title in the year 1913, he has in addition to his ordinary duties in the Crime Branch of the Criminal Investigation Department worked very hard amongst the Muhammadan public, and has been largely instrumental in bringing about the excellent relations which now exist between the Mussalmans of Bombay and the Commissioner of Police. His work in the city and among the non-combatant subjects of Turkey has been of the greatest merit and value since the outbreak of war.
16. J. Acton, inspector of police, Ahmedabad.	On the 18th April 1913, a fire broke out at a house in Ahmedabad, and on receipt of information Mr. Acton at once proceeded to the scene. On arrival he learnt that all the inmates of the house had escaped except a young girl aged 12 years, who, he was informed, was in the top room. Mr. Acton at once obtained a ladder and mounted to a barred window outside the room pointed out to him. He had to wrench out the bars before he could enter the room, and on his first attempt to search for the girl was forced back by the dense volumes of smoke; but he resumed his efforts after drenching his clothes and covering his face with a wet cloth. He discovered the body of the girl and carried it out but unfortunately too late to save the girl's life. Mr. Acton ran considerable risk as the floor of the room collapsed a few minutes later.

| 17. Dhondu Narayan, constable. | Early on the morning of July 12th, 1915, a burglary took place in Bombay and on the alarm being given Dhondu Narayan ran forward to arrest one of the burglars who was armed with a long knife and had already stabbed a coolie. Dhondu Narayan seized and wrestled with the burglar, who stabbed him so severely in the back that he had to loose his hold. The burglar then made off, but Dhondu Narayan, though badly wounded, followed him up and seized him again. Although stabbed again twice, he still clung to the man, and eventually let go only on receiving a fourth stab over the left eye. The burglar then made his escape, stabbing on the road two townsmen who were running up to the constable's assistance. The manner in which this young constable though unarmed and badly wounded, followed the man up and continued his attempt to arrest him evidences courage and a devotion to duty of a high order. |
| 18. Oswald Allen Harker, Deputy Commissioner of Police. | As Deputy Commissioner of Police, Mr. Harker from the outbreak of the war was placed in charge of all the special police arrangements required by the Military authorities in connection with the movement to Bombay and embarkation of the expeditionary forces. He has been in direct control of the police arrangements in the Alexandra Dock, which have been carried out without any hitch and has also dealt direct with the Brigade Office in all matters concerning the presence of large bodies of troops in Bombay. He has also had extra work in connection with sudden demands for assistance from both the Military and Naval authorities. He has shown well-directed energy in these matters, while simultaneously carrying on his ordinary duties, which are by no means light, and his work merits special recognition. |
| 19. John Joseph Stenson, inspector of police. | This officer joined the Bombay City Police Force in 1898, and has a perfectly clean record. He has earned twenty-seven special entries for excellent work in connection with various forms of crime, and for the last four years has been in charge of one of the new sub-divisions under the organization scheme, where, by his hard work, experience, and care, he has brought the administration of a troublesome area to a very high level. On the outbreak of war with Turkey he was charged with the extra task of making a complete register of all the Turkish subjects, most of whom live in his sub-division, and he carried out this duty with so much tact and expedition that practically no movement took place among the population of the "E" Division at a time when a panic and exodus might well have been expected. He has never been censured in any way by a court of law, but on the contrary has twice been specially complimented by the Magistracy. |

Range has been equally satisfactory. Although in charge of a very heavy range he has devoted himself to his work with zeal and the efficient management of the range is due largely to his supervision and control. He is entirely responsible for the initiation and organization in Western Bengal of the village defence scheme which promises to be popular and which has, in several instances, been instrumental in preventing crime. He is a most zealous and conscientious worker, and an officer of sound judgment who has rendered long and meritorious service.

21. Trevor Claude Simpson,
Superintendent of
Police.

This officer was commended several times for his successful administration of the police in the heavy criminal districts of Bakarganj and Monghyr. He is an enthusiastic and hardworking officer and a strong disciplinarian. He has done excellent work as Assistant to the Deputy-Inspector-General of Police, Crime and Railways, and as Personal Assistant to the Inspector-General of Police, in which capacity his work during the past two years has been of a very high order. The recent progress in the reform and reorganization of the Police Department is attributed in a great measure to his indefatigable industry and hard work combined with his experience and devotion to duty.

- 22. Lionel Hewitt Colson, Su-
perintendent of Police.

This officer was specially selected for executive work in the Intelligence Branch of the Criminal Intelligence Department, Bengal, on the reconstitution of the province in April 1912. He has fully justified his selection and has done remarkably good work. He is very careful and sound in his judgment and can be trusted to conduct the most intricate cases.

23. Keramat Husain, head
constable.

This officer displayed conspicuous gallantry and presence of mind on the occasion of a Sonthal disturbance in Dinajpur in March last. After Mr. Burton, the Superintendent of Police, had been wounded, Keramat Husain assumed charge and with great presence of mind and by an intelligent use of his men succeeded in keeping the refractory Sonthals within their houses and in arresting them on the arrival of reinforcements from headquarters. The head constable by his gallant example prevented any further breach of the peace.

24. Elliot Kaye, Superin-
tendent of Police.

The village of Bargadwa in the Basti District was the scene of a serious attempt at rioting on the occasion of the Muhammadan festival of the *Id* in October 1914. The Muhammadan inhabitants of the village had determined to sacrifice buffaloes in accordance with their time-honoured practice and the Hindus of the neighbouring villages were equally determined to prevent the sacrifices taking place. On the 31st October a determined effort was made by the Hindus to force their way into Bargadwa and rescue the sacrificial animals. Mr. Kaye, Superintendent of Police, accompanied by the Sub-Divisional Officer, the tahsildar, and a small force of police, was occupied the whole day in stopping the rushes of the crowds which had gathered in considerable numbers and which made repeated attacks to get into the village. First a crowd of 200 was dispersed, and this was followed by simultaneous attacks by two larger bodies, which were only dispersed with great difficulty and after they had actually broken

The situation at this stage was critical as the police were outnumbered, and Mr. Kaye was finally forced to fire at the leaders and this resolute action on his part had the desired effect of driving off the crowd. Mr. Kaye's promptitude and masterly handling of the police undoubtedly saved the situation and prevented serious rioting and loss of life. |
| 25. Bashir Husain, sub-inspector of police. | Two notorious dacoits, named Barkau Singh and Gauri Shankar, had given the police of the Hardoi and Farrakhabad districts much anxiety by their criminal activity and immunity from arrest. On the 24th of September 1914 information was received that they were resting in a hut and sub-inspector Bashir Husain with other police at once left for the jungle where the hut was situated and gradually surrounded it. This sub-inspector with two constables crept up to the hut and saw Barkau Singh and Gauri Shankar asleep inside on the ground with loaded firearms beside them. The police crawled into the hut and secured Barkau Singh before he could use his revolver. Gauri Shankar, however, managed to snatch his gun and fire at the police before they could seize him. Sub-inspector Bashir Husain and the constables were all severely injured, but in spite of their wounds they held the two dacoits down till the rest of the police party arrived. |

| 26. H. V. B. Scott, Superintendent of Police. | This officer, who entered the Police Department in 1894, has done excellent work wherever he has served. He held the important charge of the Delhi district from August 1907 to April 1912, and on him fell the organization of the preliminary arrangements for His Majesty the King-Emperor's Darbar in the winter of 1911. His services before and during the Darbar were of a most valuable nature. Mr. Scott's work in connection with sedition also entitles him to recognition. |
| 27. A. W. Mercer, Superintendent of Police. | Mr. Mercer rendered valuable services to Government as Assistant Political Officer and Commandant of the Waziristan Levies, from May 1896 to September 1898, during which period he also officiated for three months as Political Officer, Wano. He subsequently proceeded to Kohat, where his services in negotiations with the Adam Khel tribesmen for the construction of a good road through the Kohat Pass were acknowledged by the Government of India. In his capacity as Adjutant of the Samana Rifles he did excellent work in organizing and training this newly raised Military Police Corps. Since February 1911 Mr. Mercer has done splendid work as Principal, Police Training School, Phillaur, in which capacity he has trained both gazetted and non-gazetted officers on sound lines. On the outbreak of war it was realized that certain tracts in the Punjab were likely to get out of hand, and it was therefore decided to bring the Punjab police reserves together at Phillaur and train them to operate in separate bodies over large tracts of country and at the same time to keep in touch with each other and the movements of hostile gangs. All this training devolved upon Mr. Mercer and, in spite of many difficulties, excellent results were obtained, as was evidenced subsequently when reconnaissances in force were carried out under Mr. Mercer's command with valuable results in the Doaba tract. Excellent work was |

28. J. F. Coatman, Assistant Superintendent of Police.	When the recent trouble in the south-west portion of the Punjab was at its height Mr. Coatman was sent from Phillaur to Muzaffargarh to assist in the suppression of dacoities in that district. Immediately on arrival, Mr. Coatman proceeded with a small body of reserves to Jatoi, the storm centre, where he acted with great vigour, patrolling himself night and day and sending out well organized patrol parties in different directions. Several dacoities were prevented by the energy of Mr. Coatman who sent out patrols to villages likely to be attacked and himself drove off several gangs. In one of these cases he personally captured a dacoit red-handed, and, in another case, one of his patrol parties encountered and after a brief fight dispersed a gang of 500 dacoits. Mr. Coatman's firm, vigorous, and courageous action put an immediate stop to the trouble then prevailing in the Muzaffargarh District. His health subsequently broke down as a result of the strain and exposure entailed in carrying out his arduous duties.
Adul Aziz, inspector of police.	This officer entered the Police Department on the 1st June 1898 as a constable and has by steady application and honest work raised himself to his present position as inspector with the well deserved reputation of being one of the best detectives and investigating officers in the department. During his service of 16 years he has gained no less than 81 commendatory entries in his character roll for special service and, on many occasions, he has also been rewarded in other ways while, on the other hand, he has never incurred so much as a censure. He has figured with success in many difficult and well known investigations in which his work has been of the greatest value.

He has shown great acumen and tact in several important cases.

35. Sher Muhammad, head constable, Dera Ghazi Khan District. head constable, with six foot constables, was despatched to the town of Khairpur Sadat, on which a raid by dacoits was expected. The head constable and his men reached Khairpur at 8 p.m. and began to patrol. Between 9 and 10 p.m. the sound of persons assembling in the date palms outside was heard, and, shortly afterwards, a large gang of dacoits approached the town uttering wild cries. The head constable doubled his men to the side of the town against which the attack was expected. The dacoits rushed on firing a gun as they advanced. The police fired a volley as a warning and the dacoits drew back for a space. Then, thinking that the resistance of the police was not of a serious nature, the whole raiding party again rushed to attack. The head constable, therefore, gave the order to fire a volley of buck-shot, and, under his directions, independent firing was continued until the dacoits broke and fled, leaving two of their number dead on the ground, another in a dying condition, and a fourth who was severely wounded. The strength of the gang has been variously estimated at from 500 to 1,000 men, but, whatever their actual number may have been, it is certain that the gang was a very large one and that, had it not been for the presence of the police and their cool and determined resistance inspired by the head constable, Khairpur would have been sacked and burnt.

36. Phuman Singh, foot constable.

Phuman Singh, though himself unarmed, chased and seized a desperate criminal armed with a dagger and, though wounded in several places, held on to his prisoner till help arrived.

BURMA.

37. Edward Cheke Smalley Shuttleworth, Superintendent of Police.

Mr. Shuttleworth joined the Police in February 1887, and served with success in various districts until 1905. In that year he was employed on special duty in connection with the reforms resulting from the report of the Indian Police Commission, and his work was of much assistance to the Local Government. He was then employed as Personal Assistant to the Inspector-General of Police until 1909, when he was appointed to be Assistant Commissioner of Police, Rangoon Town. He still holds this appointment, and has officiated as Commissioner of Police on several occasions. Since the outbreak of war Mr. Shuttleworth's services have been of special value. His career as a police-officer has been throughout exceptionally meritorious and he has shown special ability in administrative work and in organization.

38. Nawab Ali, head constable.

On the 19th February 1915 two Burmans, of whom one was armed with a revolver and clasp-knife and the other with a gun and dagger, committed a highway robbery on Mandalay Hill. They were chased by Nawab Ali, who was unarmed. He brought the robbers to bay and seized one of them single-handed. Although a crowd was collecting, Nawab Ali at this time received no help from the onlookers, and the second robber came to his companion's assistance and attempted to fire his revolver twice at Nawab Ali at very close range but twice the revolver missed fire. Nawab Ali then attempted to seize both the robbers. One of them broke loose and made a third attempt to shoot the head constable at point-blank range, but again the revolver missed fire. The crowd then rushed in, and the two robbers were secured. It was entirely due to Nawab Ali's bravery and endurance that the robbers were captured.

| 39. *Daim Khan, head constable. | On the 14th February 1915 three men, of whom one was armed with a revolver, committed a robbery in Mandalay Town. Two of them were traced to a certain house. Head constable Daim Khan, who was awarded the King's Police Medal in 1913 for conspicuous bravery, was ordered to go up on to the roof of the house and see if the men were hiding there. Daim Khan found two men crouching on the roof, and one of them fired a shot at him. Daim Khan there-upon though unarmed closed with this man and seized him by the hair. A struggle ensued, in the course of which both Daim Khan and his assailant fell to the ground, a distance of 20 feet. Although badly hurt by the fall and almost unconscious, Daim Khan held on to the robber until he was taken into custody. The other robber was subsequently secured. |
| 40. Maung Mo Zwe, head constable, and officiating sub-inspector of police. | On the evening of the 28th November 1914, at a pagoda festival in Thayetmyo, one Nga Shwe, who had been drinking, suddenly ran amok, armed with a dagger, and after fatally stabbing one man, ran stabbing right and left at everybody whom he met, including an Indian police constable, an old woman, a blind beggar and several others. He then met head constable Maung Mo Zwe and constable Maung San Baw, who were on duty armed with sticks. Maung Mo Zwe without hesitation attacked Nga Shwe but was stabbed in the hand and wrist and compelled to drop his stick. Maung San Baw went to his assistance and, finding his stick ineffective, dropped it and grappled with Nga Shwe seizing him round the waist and trying to get him down. While doing this he was severely stabbed in the back, but held on while Maung Mo Zwe, with the assistance of a bystander, beat Nga Shwe to the ground, where he lost his dagger and was secured. Nga Shwe killed one person and wounded eleven others, including two women, and there is no doubt that if it had not been for the prompt and gallant behaviour of head constable Maung Mo Zwe and constable Maung San Baw, he would have killed and injured many more, as the place was crowded and he was in a state of frenzy. |
| 41. Maung San Baw, constable. | Maung San Baw showed conspicuous bravery in assisting head constable Maung Mo Zwe in arresting Nga Shwe, who had run amok and stabbed several people as described in the previous recommendation (No. 40). |
| 42. Sukraj Limbu, subadar | Subadar Sukraj Limbu, of the Putao Battalion of the Burma Military Police, who is now serving in Europe with the 3rd (Q.A.O.) He has been awarded the India Medal, 1884, with Burma Clasp, 1889-91, and 1892-93. He served in the operations on the North-East Frontier in connection with Hakmti Long in 1910-11, 1911-12, and 1912-13, and received a Sword of Honour from the Lieutenant-Governor in 1911. During the recent operations against the Kachins, Subadar Sukraj Limbu displayed conspicuous gallantry and leading, and was warmly praised by the British officers under whom he served. He has always been distinguished for keenness and efficiency, and by his conduct and example he has helped to keep his battalion of Military Police in good order. |

46. Muhammad Akbar, offici-

of police.
- On the 27th February 1915, sub-inspector Muhammad Akbar left Police Station Shankargarh, accompanied by two constables, to investigate a dacoity case. As he approached Piari village he saw, and recognized, a man named Faizulla, who had been expelled from the district under the Frontier Crimes Regulation and was suspected of complicity in two cases of dacoity. Faizulla was armed with a .303 Martini-Metford carbine and was wearing a bandolier full of cartridges. On seeing the police he started off for the border. The police were unarmed and sub-inspector Muhammad Akbar sent the constables to the village to get assistance while he himself followed Faizulla. The latter threatened to shoot him unless he went away. The sub-inspector managed to get close to Faizulla, threw himself on him, and overpowered him. Faizulla fired his carbine but without effect and, on the arrival of the constables with assistance, he was secured.
47. Khan Sahib Boi Khan,

- On the 14th April 1915, a party of 38 rifles of the Frontier Constabulary returning from patrol under the command of Subadar-Major Boi Khan was crossing the river Gomai near the Manjhi post. On reaching an island half way across left by the flood, the river was found to be rapidly rising, and the party endeavoured to return to the Manjhi bank. Sepoy Aslam, with others, was attempting to cross the river, when he was carried away into deep water under a cliff, and disappeared from view. Subadar-Major Boi Khan was at the head of the island mentioned above, and deliberately put his horse into the main stream, in which he was carried down until he managed to reach the further bank. Owing to the force of the stream none of the men carrying rifles

were able to follow him. On reaching the further bank the Subadar-Major galloped down stream about a thousand yards to a place where the bed of the river was dotted with boulders, and where the sepoy had last been seen. Dis-mounting at this point he entered the stream, and by bracing himself against boulders, reached the sepoy about six yards from the bank, where he was caught in some rocks. The sepoy was badly wounded in the head and succumbed to his injuries about four hours later.

HYDERABAD.

48. William Alfred Gayer,
Deputy Inspector-
General of Police, His
Highness the Nizam's
Government. •

Mr. W. A. Gayer joined the Indian Police Department in December 1887 and in 1894 was appointed Assistant to the General Superintendent of Thagi and Dakaiti. In 1896 he was transferred from Rajputana to Hyderabad as Thagi Assistant. When the Thagi and Dakaiti establishment in the Hyderabad State was made over to His Highness' Government in 1904, Mr. Gayer's services were transferred with it as Assistant to the Inspector General of His Highness the Nizam's District Police, and in 1910 his designation was altered to Deputy Inspector-General of Police. Mr. Gayer is a conscientious and hardworking officer. As head of the Criminal Investigation Department of the Hyderabad State he has displayed marked ability, whilst his untiring energy and single-hearted devotion to duty have been of the greatest value to Mr. Hankin in the task of improving the police administration of His Highness' Dominions. His skill in detective work has recently been utilized by the Nizam in the investigation of confidential cases of much importance for which he has been specially rewarded.

AJMER-MERWARA.

49. Subhan Khan, constable .

On the 28th March 1914, Subhan Khan showed great gallantry in defending a cart, containing treasure to the value of Rs20,000, which was attacked by 8 to 10 dacoits armed with guns, swords, and bludgeons. The party escorting the cart, numbering eight persons (only 2 of whom were constables), fled with the exception of this constable but, though unarmed except for a bludgeon, he resisted the dacoits and seized one of their number and it was not till he was felled to the ground after being wounded in the head and thigh with slugs fired from a gun that he released the dacoit. As a result of his resistance the dacoits dropped the one bag of Rs6,000 which they had seized and the object of their attack was entirely frustrated. It is doubtful whether the injury which Subhan Khan received will not be permanent.

BALUCHISTAN.

50. Abbas Raza Khan, sub-
inspector of police.

Previous to his enrolment in the Baluchistan Police, Abbas Raza Khan served as a Jemadar in the 106th Hazara Pioneers for 8 years and 9 months. On the 8th February 1915, sub-inspector Abbas Raza was at Killa Abdulla, near the Afghan frontier, in charge of a small force of 15 policemen. He got information that the place was going to be raided in a few hours by a powerful and well-armed gang from across the frontier. He made the best dispositions possible and induced the police to hold their fire till

the critical moment. The result was that the raiders did no damage while they lost four killed and two wounded. There is no doubt that others who got away were also wounded. This repulse had the most salutary effect on the border, and the sub-inspector's conduct showed disciplined courage of a high order.

51. Gulab Shah, mounted
head constable.

At Fort Sandeman on the 14th August 1914, ex-head constable Sher Singh after being dismissed from the police got possession of a Pathan's rifle and a number of rounds of ammunition and attempted to shoot sub-inspector Sundar Singh. He fired at the sub-inspector and missed and then ran to the bazaar where he wounded a local Pathan who died from the effects of the wound. The offender then ran and took cover in a sangar on the hill behind the police rifle butts, and opened fire on the police who were pursuing him. Gulab Shah and seven other policemen ran to cover within 70 yards of where Sher Singh was hiding. Gulab Shah was not content to lie down as soon as he reached cover, but with great gallantry crept up to within 28 yards of the murderer, then stood up, challenged him and took him prisoner. Had Sher Singh's rifle been loaded at the time he was challenged, Gulab Shah would certainly have lost his life. His brave act secured the surrender of Sher Singh without further bloodshed.
